

Bathing, Golfing, Fishing

THE thunder of the surf on the white sand beaches lures lovers of old ocean to the shore, and there is wonderful surf-bathing at the several beaches adjacent to historic St. Augustine. Motoring on the hard-surf-pounded floor of the beach is never-to-be-forgotten. On this page are several splendid beach views, two showing motoring on the beach.

St. Augustine's golf links are par excellence and a thorough inspection of same will readily give one an idea of the wonderful opportunities offered here to the lover of this all-American sport. Tournaments of nation-wide interest are held at the St. Augustine Links, and celebrities known the world over declare the local greens to have no superiors. The city boasts of three splendid courses, with another now in process of construction. Visitors are welcomed at all local clubs, and every courtesy is extended.

This is a veritable angler's paradise, with the streams which bound St. Augustine on the east, south and west teeming with fish of every variety peculiar to southern waters. Those who would go farther afield sun themselves on the rock jetties opposite the Anastasia lighthouse, and enjoy rare sport.
