Recommended for audience aged 10 and above, *Ghosts & Spectres – Shadows of History* brings to light clouded histories that remain a lingering presence in collective memories through local mythologies, ghostly figures, and traditions. By playing with concepts of ghosts and spectres through the filmmaking techniques of storytelling by 4 Asian artists, these tours provide opportunities for students to improve their observation skills and interpretive thinking of such critical issues. Led by NTU CCA Singapore's curators, they will provide insights to the exhibiting artists, their works, as well as elaborate on the key themes of the exhibition.
