

### Gatherings by the Wayside.

The *Oregonian* says the Oregon and Washington war bonds were printed at its latest dates from Washington, and it was supposed that their issue would be commenced by the middle of the present month.

The same paper says that Clatsop beach is becoming a fashionable summer resort. It publishes a list of those lately sojourning at that place, embracing a portion of the *elite* of Portland. Bathing, hunting, fishing and riding are among the pleasures of the day, with dancing in the evening. Two elk, one hundred and twenty-seven brook trout, three baskets clams, and two hundred and forty-six soft shell crabs were the result of one day's "sporting."

The *Mountaineer* says that the settlers in Umatilla valley are removing to places of safety.

The *Advertiser's* San Francisco correspondent says that Lady Franklin has determined to visit the interior of California previous to her departure for England.

Several thousand dollars have been raised in San Francisco for the relief of the families of volunteers.

Maj. Carleton, it is said, is to command the expedition for the plains.

Traitors are among the Indians east of the Cascades striving to incite them to make war upon the whites.

Senator McDougall, of California, in the Senate of the United States, declared that President Lincoln was justified in all he had done.

The treason Democracy of California, to dupe the uninitiated, and secure the votes of those Union men who have not taken the trouble to investigate, prefix the word "Union" to their party name, and thus we hear of J. R. McConnell, the *Union-Democratic* nominee; the *Union-Democratic* ticket; the *Union-Democratic* platform, etc. McConnell, before his nomination, had repeatedly made the assertion "As my State goes so I go." Now this shows just about what confidence should be placed in the professions of the *Union-Democracy* of California. Garfield was the *Union-Democratic* nominee in the late contest here, and his defeat is but a precedent of what will befall his California colleague. Treason is at a discount on this coast, and will be repudiated at the coming election in California, and eventually in Oregon, just as it was repudiated in this Territory.
