 Able to fish 8.7 days

Very cold first 4 days of trip. Had minor fish kill in our canal from cold while gone. Started 41 fm break at 27°14' fair, 15 blacks. Moved to bottom above 27 line 41 break only fair but 40 fm flat piece had 57 head on 2 sections. 27°03-5 6 layers in back box in less than 3 days, 2nd box full less than 7 days. Boats had bottom covered between 27 line and 26°26'. Few fish 26°26' 42 fm roll. Moved down to N. Xmas 26°37' a few blacks very N. end but almost no blacks all way down to 26°04' Only area did real good 39 break between 26°2 → 17 caught 18# margate Head – 79, 104, 115, 77, 44, 102, 50, 37, 81 All 3 of us took 4 hrs wheel watches on way home. Auto Pilot working good for a change. In 1100h called MBS, talked to Allen Smith. Offered 310, 260. Call SOS offered same but came up to 3.15, 3.25, 2.65. Out 1745h, on station 0545h Feb. 7. Paul R. started to boat Feb. 6th 2000h. Stopped at Anchor Inn for one for road and never made it to boat.

Never called so hired Tom H. Hire Robert Engle from Parrish but guy had mental problems so took home same night. Started 26°53' 40fm work down Xmas to 25°24' 44 fm. Only place any fish left 44fm 25°39' break. Boat every where even ran into pets Dream who normally fishes Carabbean. Tried 68 fm + 85 hump just below 25°30' only scattered fish. Ran out time to go further S so started home.

Out 15th a day late because Paul R. drunk-
again. Very foggy but left anyway. Afraid crew would
get drunk again. Started 27°14' 42fm Caught 69 gags
off of. Worked N. along 30's + 40's but didn't find
many fish till hit 38fm 28°09' bottom. Put down
night lines almost every night. Some blacks every
line. Anchor line rapped around anchor on rough
night, while putting line on stern ran over and
cut off. Lost almost whole day grappling up.
Lucky bottom was sandy. Had much trouble with
other boats on bottom we wanted to fish. Lady Brandy

Brandy-Randy, Mad Beach-Mat, Star Chief Ronnie Avery
C.F. 21st Wave hit stbd forward reel so hard ripped
bolts with washers through rail, broke wiring pipe loose from

Paul R. didn't do taxes till last minute so
 didn't leave till 2120h. Started on 13 bottom
 but nothing there. Bottom above 27 line bare.
 Word down to 26°44' in 40's but either boats
 on bottom or no fish. Heard boats on
 every ledge on Xmas so after wasteing 2 days
 ran in shore to 22fm 26°36' Work south but
 fish very scattered. Caught dolphin on
 night line. Had tail wrapped in main cable.

Started shallow 25°48' because weather

suppose to be bumpie for a day or two. Was

very rough hole trip. Many boat till below

24°30' Fished good area at 24°18' 24°49' 92 head

best ever did at that spot, but mainly red gr.

Thinned area out and still to rough to explore

so ran down to spine 24°57' 83°38' but

fishing poor there. Moved down to roll off

east of spine, 1 fish for 4 sections + 4 big

sharks. 1 Fished 2 areas just N. of roll off

but mainly sm. r. gr. ~ 4 per section. Moved

out to slot, few fish there but section of

break 24°48.0 – 83°56.0 → 48.00 – 54.7 very good.

Best day of trip here 7 Bl, 6 SC, 68# war, some YES + hambones

+ nice red gr. for a change. Anchor down, took care of fish,

then checked fuel, to low to stay another day, started

home 0045 on 8th May. 4 section down to clean off

old bait 26°11 – 8308 → N, 4 sm. R. Gr., black fish +

Wait 2 days for Paul Ransom but wouldn't stop drinking and come to work so hire Paul Williams, a black man who had worked with Tom H. on Souther Cross for 2 years. Very talkative, living with white nurse, ex drug abuser + seller but dependable. Started 25°38' 43fm a few fish. Passed Sea Hawk from Belle's going N., should have followed. Worked to slot, down 70 break to Yellow Eye Hills. Poorest fishing have ever seen in area. Moved N. to 25°30' 76-63 fm but very few fish there so made 65 mile run back into 24fm 25°12'.

Caught most red gr. between 25°12 → 25 Few fish 26°03 → 25°32' Last day 22fm 26°09 + 17 looked good for next trip.

Though forward steering chain slipping, tightened still slipping
called Lewis Woods to replace steering box. He bought + replaced +
2 universals, still didn't fix so check chain Paul Ransom replaced
in fish hole. Had so much slop a moron could see it would slip.

Crew left light on in eng. room, ran start batterys down. Put
battery switch on 2. Eng room filled with heavy acrid smoke
instantly change switches back. Alcoholic Paul Ransom
had put one #1 wire to - instead of + on battery, when
we changed batterys in fall. My fault for not checking.

Out Dec. 11, 2001 wanted to leave Monday boat ready Sat. but Paul Williamson didn't feel like going, got drunk night before. Out Tues 7:20 PM. Started where fished last trip 27°26' 83°30' area 24fm but few fish left fish W of but no fish. 27°34 – 83°38 area few fish. To 27°36 84°12' 36fm break fairway V. few fish. To 42 break S.W. of but Kevin said Ziggye + Larry Mullins had been hammering we caught almost no fish. To 27°26 – 84 01 11 blacks on E side of bottoms but almost no fish on rest of bottom. 40 break to west of only v. scattered fish. 13 break to south totally bare. To 27°05 – 83°56' a few fish but not enough to reset. Heard Larry M. on radio to S. so went back to E. Didn't find anything till 27°07 83°27 good looking bottom but no fish. N to 27°16 83°29 fair fishing but not enough bottom. Back up to 27°26 83°24 but only scattered fish. Set 2 gears started a third but crew, esp. Paul, grumbling so much decide to come home. Tom didn't offer to take wheel watch so hand steered all way home by self because A.P. clutch not working.

Can't trust Paul on wheel watch
New name for Tom H. Pack Rat because he
is a sloven of the first degree. I believe he would
let garbage pile up around him until he smothered.
Paul Williamson grumbles all day but is so dumb
we have to tell him to put ball on every time
or he would drop end of line over side with out
it, as he did a few times. Though he was
greasing blocks but I checked later and
no grease in gun. Has been a very rough
year. Between poor fish, 1 month closure,
and 3 screw up Pauls + Tommy H.S. sloveliness,
insolence + arrogance + Betty's foot + joint problems
+ my ulcer + sore knees + soft dick + stock
market tumble + 911 + having to loan money
to Emilie because of he bypass operation
+ loss of work + all moneys had to spend
on boat hasn't be a very pleasant year.
Only thing I can see to do is buy 4 more
miles of gear and become a long liner
instead of the short linere, 3 miles that
I am now.

Started 27°06 40 fm, 3 sets, bottom burned, many
 boat N + S. Tom kept slamming splices into
 clips, finally forward hauling arm broke. In
 0715h 5th Lewis Woods came over fixed. I had
 reinstalled by 12:30. To Cortez Fishing Center for
 fuel. Out 4:10 PM Paul Williamson. Out 1830h on
 2nd but Murdock acted drugged out wouldn't
 help load boat. Outside pass Tom asked him
 to help salt bait wouldn't do. Took swing at
 Tom + threatened with knife. Took back to Bells. Took
 swing at dock on Tom again. Tom threw in
 water. Greg H. helped me take boat back to
 house. Didn't get to bottom 26°51 22fm
 before first filter plugged. Fishing v. poor, everyone
 complaining. Talked to Chumney + Ricky Waits.
 Fished down to 25°56' 25fm Used 4 filters. Decide
 better to go home before out of filters. Used 4 on
 way home 90 NM. Sputtering off + on from sea
 buoy to house. Very nerve racking. 4 filters
 last trip - 8 this one. Tom hit splice broke, had
 to graphel up.

Subject: Would you believe.....

An elderly lady phoned her telephone company to report that her telephone failed to ring when her friends called and that on the few occasions when it did ring, her pet dog always moaned right before the phone rang.

The telephone repairman proceeded to the scene, curious to see this psychic dog or senile elderly lady. He climbed a nearby telephone pole, hooked in his test set, and dialed the subscriber's house. The phone didn't ring right away, but then the dog moaned loudly and the telephone began to ring.

Climbing down from the pole, the telephone repairman found:

1. The dog was tied to the telephone system's ground wire via a steel chain and collar.
2. The wire connection to the ground rod was loose.
3. The dog was receiving 90 volts of signaling current when the phone number was called.
4. After a couple of such jolts, the dog would start moaning and then urinate on himself and the ground.
5. The wet ground would complete the circuit, thus causing the phone to ring.

Which goes to show that some problems can be fixed by pissing and moaning.

NASIDS - nonsteroidal anti-inflammatory drugs
 Aspirin, ibuprofen (Advil, Motrin) naproxen sodium
 (Alevin) Ketoprofen. Can cause stomach upset, ulcers,
 + bleeding. The ability of aspirin to prevent blood clots is
compromised by mixing with Motrin or advil (ibuprofen)
 use aspirin with acetaminophen (Tylenol) Liver damage if [??].
Acetaminophen- Doesn't relieve inflammation but
 has few side effects. NASIDS can reduce effectiveness
of some blood pressure pills + water pills. O.D. will
 cause kidney damage.

Ibuprofen (motrin, Advil) seems to block beneficial
 things aspirin does for body. Don't mix.

Ibuprofen (Motrin, Advil) + naproxen (Alevin) seem to
 dissolve plaque + prevent Alzheimers. R.D. 7/03

Extended use of NASID'S can increase blood pressure.
