Freimuth, Conroe Get Doctorates At Convocation

School To Honor Mrs. Dreyfus; Plaque Unveiling, Library & Lab. Dedications

The annual Convocation Day will be held on Monday. Wagner this year honors Irwin A. Conroe, director of the Division of Higher Education of the State of New York, State Education Department, with the awarding of an L.L.D. degree. Rev. Henry C. Freimuth, '99, active in church organizations and now serving on the board of the Protestant Ministerial Association of the Bronx, will be awarded the honorary degree of D.D. Rev. Freimuth is also a member of the Board of Trustees.

The program will begin at 3 P.M. with the academic procession, headed by Dr. DeWalsh. The orchestra will render the processional and recessional. Choir Director Silas H. Engum will sing two solos in the course of the program. The address is to be delivered by Mr. Conroe, followed by the conferring of a Distinguished Citizen Award, which is to become an annual award. The first one is to be awarded to Mrs. Bertha Louise Dreyfus, who has done much not only for Wagner, but for the entire borough.

The remainder of the program will be held in various parts of the Administration Building. First will be the unveiling of the Memorial Plaques in the entrance of the building. The Edwin Markham Room of the library will be dedicated at 4:30. Many of Markham's works and pictures of him will be on display. The Dr. Louis A. Dreyfus Memorial Laboratories will be dedicated at 5 o'clock on the third floor.

Supper will be served at a nominal fee at 6 o'clock in the Cunard Hall. Monday evening will be the first meeting of the Staten Island division of Wagner Guild.

PEP RALLY TONIGHT

Paramount Theater Scene of Gathering; Coach and Entire Team to be Presented

GREEN WAVE MEETS BROOKLYN

The Green Wave meets one of its toughest opponents tomorrow in Brooklyn College. With the enforced idleness of the team due to the rained-out Panzer game, the team should be in shape for the game despite injuries sustained in the New Britain game.

While Brooklyn has had only a mediocre season, it is considered to be one of the toughest teams to face the Green and White this year. It was defeated by Wagner 26-6 last year. It comes to Thompson Stadium today to avenge itself. The Hilltoppers are out to prevent this and thus return to the win column.

It is believed the game will be hard-fought with slightly better than even chances for a Wagner victory.

Debut Of Two New Songs By Blum, Betancourt

A large group of loyal Green and White followers is expected to cheer the greatest Eleven in Wagner history on to victory against Brooklyn College, when Fabian's Staten Island Paramount Theatre stages tonight a Wagner Pep Rally. Featured on the program will be the announcement that a Knute Rockne medal will be awarded by the Fabian Theatres to the winner of a field-goal kicking contest which will take place between halves of tomorrow's Wagner-Brooklyn game. The contest is open to all Staten Island high schools. Curtis, New Dorp, and the Staten Island Academy will be represented.

The rally will open with a background of Wagner music, including one of the oldest themes on the hill -''Wagner Will Shine Tonight.' Following this, two new songs will make their debuts: "Alumnae" by Frank Betancourt, and "The Green Wave March", a football song by Joseph Blum.

Coach Ray Kirchmyer is then expected to speak, after which the Wagner team will be introduced to the audience. The Green and White cheering squad will spark the audience with well-known Wagner yells. Don Bautz, general rally chairman, assures all of a "fighting good time." A section of the theatre will be reserved for Wagner rooters.

Captain Mike Perfect who is unable to be at the rally made the following prediction: "I am sure the same team that halted a powerful Bergen aggregation can beat Brooklyn College decisively."

Childs has contributed much to extracurricular activities on the campus. He has served as a faculty advisor on the Board of Publications, to the Music Club, and is an honorary brother of Sigma Delta Phi. His brothers wish him great success in his new position, and yesterday expressed the regret of his loss to Wagner in chapel, when they presented him with their insignia.

The favorable work that he has done at Wagner will always remain a credit to him. He and his family were well liked by every student that knew them. Professor Childs stated that his association with the students was something that he'd never forget, and that "it's like leaving home to leave Wagner."

U. OF ROCHESTER CLAIMS PHYSICS **PROFESSOR**

Professor Herbert R. Childs, professor of physics and mathematics, has accepted a temporary position in the physics department of the University of Rochester, Rochester, N. Y., to begin on Monday, November 11.

At the University, his alma mater, he will be a teacher in two departments, and will also continue research work on nuclear physics and cyclotrona which will contribute to his work for the doctorate. This is a splendid chance for him to receive contacts with other institutions or even with industrial corporations.

For the last five years Professor

SNOOPINS

Here we go, into the fifth lap, with more "doit" about you and yours:

Wadayaknow!

"Man-mountain" Grosse is shaving regularly, (even) washing behind his ears, and is condescending to wear a polo shirt, now that his heart dictates his actions. He's under someone's "loving" care, they say.

Question, Please!

Is it that Bob "Flute" Schwartz is taking an active interest in Biology, or can we safely say that it is "une femme?"

Strange but true!

It seems quite obvious that "Bobby" Walters has been a faithful office-door watcher ever since Bill Rappold held her hands in Biology Lab.

Could it be?

The quartet sang at two homes recently, and at each place, Fred Vollweiler was congratulated for his "wonderful" BASS voice, while Ray Brown received commendation for his "beautiful" TENOR.

Felicitations!

Just too bad that Johnny "Jitterbug" Marino lives off the hill! Who's Helen Stegmann usually seen with up here on the hill?

Snooty, eh!!

Heard in a recent Philosophy I class; that aristocracy has been, and could be just as well said "Aristuckupacy"!!!

Cupid's Bullseye

A little birdie reports that Eddie "unobstrusive" Saul simply can't study properly of late, and what has a petite Cunarder to say about it?

AUSTIN ANDERLE DEPICTS ARMY LIFE IN ALABAMA

A general picture of life in a military camp has been provided expectant conscripts by a letter received from Austin Anderle, a former pre-medical student who is in the 102nd Observation Squadron, Air Corps, at Fort McClellan, located at Anniston, Alabama.

He describes Fort McClellan as a "mud-hole and dust-bowl". The living conditions of the "outfits of the line" are quite poor, as the Fort is below average in facilities. However, the Air Corps, encamped in separate quarters, is well treated and generally contented. The morale is high, especially among the recruits who comprise about sixty percent of the ranks, while the veterans have a more sober attitude toward the year of army life.

The camp is situated in a pine grove. The climate is mild, with an average temperature of eighty-five degrees during the day. Clothing is comfortable, and consists of an overcoat, mackinaw, dress uniform, a cotton uniform, coveralls, raincoat, and six different types of headgear.

The men live in tents with wooden floors and screens. Hot and cold running water is available, as well as showers, swimming pool, and a canteen where the men may purchase such things as cigarettes, candy, and magazines.

The food is described as "excellent, substantial, but not fancy."

The Medical detachment of the Air Corps, to which Anderle has been assigned, has for its duties the maintenance of an ambulance, hospital, dispensary, and prophylactic station. An infirmary is being constructed. It will consist of facilities for ten beds, a laboratory, offices, and living quarters for the enlisted medical men.

The social life of the men, one of the basic problems in the maintenance of morale, has been "cut to the quick", says Anderle. Those who expect to be sent to a southern camp when conscripted will be interested in learning that "the Southern girls are pretty attractive and their smooth accent enhances their beauty."

Anderle describes his attitude by writing that "there are many things about the academic life which I left behind that I miss, but I feel that I am being compensated by an experience and education which is not enclosed between the covers of a book."

Curtis Teacher Guest Speaker At Kneipe

On Monday evening, November 18, the Deutscher Verein will hold its first Kneipe of the year at Vogel's Clove Lake Restaurant. The speaker will be Mr. Louis P. Raichle, teacher of German at Curtis High School.

The program for the evening will begin at 8:30 o'clock and will feature songs, speeches and plenty of fun for all those who attend. The college faculty is invited to participate in the evening's entertainment.

The members of the committee in charge are: Robert Internann, Luther Eberhardt, and Arthur Smith...

Civil Aeronautics Appeals To Three Wagner Students

Professor Ġibson Teaches Meteorology; Professor Baez, Navigation

During the past week three students at Wagner were among the class of ten to begin a Civil Aeronautics course. They are Eleanore Schmidt, Joseph Fabregas and William Snee.

The course of instruction consists of 48 hours of class room work, 24 hours of ground work at the New Springville airport and 35 hours actual flying time. Meteorology is being taught by Professor Gibson and navigation by Professor Baez. Airport instructors will supervise the work at the airport. Classes meet Thursday and Friday evenings at Wagner and Saturday afternoons at the field. Actual flying will be done in leisure time. The course must be completed by January 15, 1941.

This is the first time in the history of the college that such a course has been undertaken by the faculty and students. Because of the great need for trained men and women to fly the new planes being built in the defense program, many colleges are being permitted to give the course. If successful this semester and if international relations are still in a precarious state, the course may be repeated during the spring term.
