PIEDMONT LITERARY SOCIETY (1976-2009)

The Piedmont Literary Society is an “organization of people interested in the creation and appreciation of literature as an art form.” The aim of the Society is to encourage students, writers, and the public at large to write and appreciate all forms of literature. The Society began in 1976 when it was determined that a creative writing publication was needed in Piedmont Virginia. Items were created by writers and were published in the *Piedmont Literary Review* at no charge. Periodic meetings are held both in the Piedmont area of Virginia and Virginia Beach and other areas of the State. Membership is open to all, with Virginia members of the Society having voting privileges. The Lynchburg Chapter of the Society was the only active group of the Society as of 2004.
