EDITORIAL

What is a university? The university is a place where new ideas are fostered and developed, and where intellectual freedom and thought is encouraged. What happens when the university becomes stagnate, unimaginative and does not meet the challenges of the day? The university dies The university student reflects the attitudes of the institution. We in the 1970's are faced with the most complex problems yet to be faced by man. Without the proper solutions to these problems, man faces extinction from the face of the earth.

What has Lawrence Institute of Technology done to prepare it's students who will be professional leaders and developers in a pollution ridden and socially unbalanced society? Where are the courses in black studies and environmental control? In the next quarter century we will face problems of tremendous social upheaval and the possibility of extinction. The Lawrence Tech student, although quite well prepared in the art of physics, engineering, mathematics and chemistry is not quite ready to face such consequential problems.

The problem lies not in the student, because the student comes ready to learn and be inspired to think. Lawrence Tech. does not teach the student to think. It only teaches the student to do. The job of inspiration lies with the admistration and faculty. With curriculums the same today as they were thirty years ago, how can these antiquated systems possibly meet the challenge of today.

With a few changes in the right directions Lawrence Tech could readily be changed from the Lawrence Tech of the 1930's into a new Lawrence Tech facing the 1970's. Without these changes the 1970's will have no need for Lawrence Tech, because Lawrence Tech will still be teaching the rhetioic of the past.

— Michael J. Thomas, Editor

"If you've seen one city slum you've seen them all."

— Spiro Agnew

"I draw the line in the dust and toss the gauntlet before the feet of tyranny, and I say segregation now, segregation tomorrow, segregation forever."

— George C. Wallace

"Now the trumpet summons us again — not as a call to bear arms, though arms we need — not as a call to battle, though embattled we are — but a call to bear the burden of a long twilight struggle. . against the common enemies of man: tyranny, poverty, disease and war itself."

— John F. Kennedy

"Now the trumpet summons us again — not as a call to bear arms, though arms we need — not as a call to battle, though embattled we are — but a call to bear the burden of a long twilight struggle. . against the common enemies of man: tyranny, poverty, disease and war itself."

— John F. Kennedy

"There are no ghettos in Chicago."

— Richard Daley

ACTIVITIES

WAR AND PEACE

WAR AND PEACE

IN THE CONDUCT OF OUR FOREIGN POLICY, WE ARE ACTING IN KEEPING WITH PRINCIPLES THAT WERE ESTABLISHED IMMEDIATELY FOLLOWING WORLD WAR II – CONTAINMENT AND PRESERVATION OF THE STATUS QUO – PRINCIPLES THAT ARE CLEARLY INADEQUATE FOR CONDITIONS MORE THAN 20 YEARS AFTER THEY WERE FIRST CONCEIVED.

– EUGENE McCARTHY

THE PRINCIPLE BEHIND OUR MILITARY ESTABLISHMENT IS SUPPOSEDLY ONE OF DEFENSE. YET THE POLICIES ARE ESSENTIALLY OFFENSIVE, AND THE PROGRAMS ARE OF SUCH MAGNITUDE THAT THEY HAVE IN FACT BECOME POLICY AND HAVE OVERRIDDEN PRINCIPLE.

— EUGENE McCARTHY

Duane Anderson

Randall Lloyd Anderson Born in Manistique, Michigan; attended Birmingham Groves High School. Special interests: Electronics, hunting, camping, sports, motorcycles, music and woodworking. Activities at Tech: I.E.E.E., M.S.P.E., I.V.C.F., Intramural football and softball. Randall would like to take Grad work in an area he finds to be of special interest. He would like to work in research or product design.

Comments on life at Tech: "Need more co-eds."

Larry D. Arnold Born in Detroit, Michigan; attended Cody High School. Special interests: Sports and coaching. Activities at Tech: Bowling League, A.S.T.D., A.M.A., I.M. Club, participated in Intramural Sports, Senior Class Representative for Industrial Management. Larry plans to do Graduate work in Business Administration.

Anthony T. Baer Born in Germany; attended Cass Technical High School. Special interests: Repairing auto engines, reading and travel. Activities at Tech: I.M. Club. Anthony plans to start this fall for an M.B.A. in Finance. He wants to work as a financial systems analyst.

Comments on life at Tech: "Very rewarding and stimulating experience. Size of school permitted me to get to know many professors, and make many lasting acquaintances with other students."

James Barret Attended Clawson High School. Activities at Tech: President of Lawrence Christian Fellowship, Assistant Editor of Lawrence Yearbook, a member of the Student Government, M.S.P.E., S.A.E. and Ski Club.

Jerome G. Baumgartner Born in Stambaugh, Michigan; attended Stambaugh High School. Special interests: Football, baseball, tennis, archery, hunting, fishing and girls. Activity at Tech: Baseball. Jerome plans to attend Michigan Tech. for graduate study in Business Administration and work as a research engineer.

Comments on life at Tech: "On the whole I think it was an enjoyable four years at Tech. Considering the caliber of the teachers, which is not the best, I think I have made the most out of the courses I have had."

Robert C. Boswell

Michael C. Bullion Born in Detroit, Michigan; attended Visitation High School. Activities at Tech: M.S.P.E. and S.A.E. Michael tentatively plans Graduate Study. Future plans "I plan to pursue a career in the Mechanical Engineering field in Industry."

Lawrence W. Buslepp Born in Detroit, Michigan; attended Benedictine High School. Special interests: Tape recordings and stereo equipment, golf, swimming, automobiles and their repair. Activity at Tech: Participant in Circle K Reliability Runs. Lawrence will wait a few years and see if he wants to attend Grad school. He plans to work in purchasing, material control or serve in some type of management function.

Comments on life at Tech: "Going to night school and working, I did not have much time for extra curricular activities, which could have enriched my years at Lawrence Institute. However, I feel that my contact with students and instructors was very beneficial. I think that Lawrence Tech has a night college program which has been well planned and will allow a student to complete his courses leading to a degree in a specialized field in a reasonable amount of time."

Robert C. Butters Born in Detroit, Michigan; attended Catholic Central High School. Special interests: Automobiles, traveling, flying and boating. Activity at Tech: I.M. Club. Robert plans to obtain a M.B.A. at U. of M., Dearborn campus and plans to be a systems engineer for I.B.M. in the future.

Comments on life at Tech: "While serving my term at L.I.T., I was quick to notice the great strides taken on behalf of the administration to move the school into the computer age. This was, indeed, destined to revolutionize the entire student body! Never before had they witnessed such blinding speed and accuracy regarding test results, scheduling, etc.. Never again will things be quite the same at good old L.I.T."

Gene R. Capilla Born in Detroit, Michigan; attended Cass Tech. High School. Special interest: Motorcycles. Activities at Tech: Phi Kappa Upsilon Fraternity. Gene is undecided about Grad school and plans to continue working in body engineering at Fisher Body.

Comments on life at Tech: "Being a night student I didn't have much opportunity to participate in social functions at L.I.T. My primary interest was finishing my schooling and getting my degree."

James Cichowski Born in Detroit, Michigan; attended St. Stanislaus High School. Special interests: Radio and television repair, electronic kit building and coin collecting. Activity at Tech: National and local member of the I.E.E.E. for two years. Jim plans to attend Grad school after completing his military obligation. He would like to work in the field of communications or possibly be a teacher.

Comments on life at Tech: "During my time at Lawrence Tech I have made many friends. I will hate to leave Tech, because I will have to say farewell to many of them. I will miss the warm atmosphere of the school, which has encouraged my studying, and the teachers who have helped me through my struggles. Although I leave this school, it will not leave me, and I will cherish the fond memories which it has created."

Michael James Bauslaugh Born in Detroit, Michigan; attended Roseville High School. Special interests: Golf, Bowling, Baseball, Football and Sketching. Activities at Tech: Intramural football, softball, bowling and A.I.A. Mike has no plans to attend Grad school and as far as his professional life is concerned, he plans to "just bounce with the punches."

Comments on life at Tech: "I think L.I.T. adequately supplies the flexible type program needed for the type of school it is. By this I mean, that it fits the needs of the student who works and come to school strictly for classes and also for the student who has time for extracurricular activities."

Abraham A. Berman Born in Landshut, Germany; attended Oak Park High School. Special interest: Skiing. Activities at Tech: Ski Club and intramural football. Abraham has no plans at present to attend Grad school and would like a career in public accounting.

Comments on life at Tech: "Hectic, enjoyable and most probably memorable."

Gary Binienda

Robert Blaine Born in Detroit, Michigan; attended Cody High School. Special interest: Sports. Activities at Tech: Intramural football, baseball and basketball, I.M. Club and A.S.T.D.

James J. Bolcki

Karl Bolte

Barry R. Clark

John Crockett

Robert Cronan

Allen Daley Born in Detroit, Michigan; attended Mackenzie High School. Special interests: Spend most weekends farming, hunting, fishing and bowling. Activities at Tech: I.M. Club and A.S.T.D. Allen has no plans at present for Grad school and hopes to work in the field of production management, production planning eventually.

Comments on life at Tech: "The one aspect of L.I.T. that I have enjoyed is the informal and more personal atmosphere here. I am not only grateful for the knowledge I have attained, but also, the many friends, both faculty and students, I have made. I hope L.I.T. continues to grow, but in doing so it never loses its personal atmosphere."

Charles W. Davis Born in Bedford, Indiana; attended Redford Union High School. Special interests: Electronics, Hi Fi, Golf and bowling. Activities at Tech: Phi Kappa Upsilon Fraternity, chorus and bowling. Charles plans on attending Grad school for Bible studies and communications for possible radio and TV mission work.

John A. Dawe Born in Detroit, Michigan; attended Cass Technical High School. Special interests: Softball, bowling and tropical fish. Activity at Tech: A.S.T.M.E. John plans are to attend Graduate school, receive a Masters Degree and eventually go into Mechanical Design Management.

Eugene Edward DeBoer Born in Lennox, South Dakota; attended Walla Walla High School. Special interests: Athletics and Reading. Activity at Tech: a member of I.M. Club. Currently a Data Processing Manager. Plans to go to a larger company or advance in his current company. Eugene plans to attend Graduate School.

Comments on life at Tech: "Life at Tech has been an enlightening experience and a lot of hard work."

Richard Debolt

James E. Deevey Born in Detroit, Michigan; attended Aero Mechanics High School. Special interests: Auto mechanics, boating and skiing. Activities at Tech: Student Government Representative, Industrial Management Club and American Management Association, President of Christian Science Organization, Ski Club and Intramural Baseball, Football and Hockey. Jim plans to attend Grad school on a part time basis. He plans to work into higher management, either through production or through planning and scheduling.

Comments on life at Tech: "I have enjoyed Lawrence Tech and think it is an ideal school for someone who has to work full or part time, while going to school."

Lawrence Dionne Born in Hazel Park, Michigan; attended Rochester Senior High School. Special interests: Building electronic equipment and all sports. Activities at Tech: Veterans Club, Chess Club, I.M. Club, A.M.A., A.S.T.D., Student Government Representative, Senior Class Representative, Intramural softball and intramural football. Lawrence plans to attend E.M.U. in the fall of 1970. His major will either be business or law. In professional life he plans on either industrial sales or law.

Comments on life at Tech: "I enjoyed my tenure at Lawrence Tech., but you can believe me when I say that I am really glad that it's coming to an end."

Paul G. Dobbs Born in Detroit, Michigan; attended Henry Ford High School. Special interests: Ham radio and photography. Paul has no plans for Grad school at present, but if the right opportunities arise, he would like to try for a Masters degree. He hopes that his professional life will enable him to climb to the top of the corporate structure of the company he finally chooses to work with.

Comments on life at Tech: "As I have already indicated, work has necessitated my spending a minimum amount of time on campus. However, when here I have found the atmosphere to be relatively professional and very conducive to learning. Most instructors brought a lot of practical information into their classes, which I believe greatly enhanced my knowledge of the real situation, that will confront me in the business world I will enter upon graduation."

Paul V. Dodge Born in Detroit, Michigan; attended Redford High School. Special interests: Auto and power boat racing, American history. Paul plans to work in engineering in process foods.

Comments on life at Tech: "Work, school (nights) and family left little time to enjoy outside school activities as they are for night school students."

Charles Edmonds

Tom Edwards Born in Detroit, Michigan; attended Cody High School. Special interests: Music and automobile design. Activities at Tech: I.E.E.E. Tom has no definite plans to go to Grad school, but plans to work in the field of electrical engineering.

Comments on life at Tech: "I feel L.I.T. is a very good Tech. school. It looks to be a very advancing school growth wise. The future seems very plentiful for L.I.T. students."

Larry J. Engel Born in Detroit, Michigan; attended Dondero High School. Special interests: Automobile racing and sports of all kinds. Activities at Tech: S.A.E., M.S.P.E., Senior Class Representative and team captain in intramural football. Larry intends to begin study in either law school or business administration and is investigating opportunities in product engineering and development, manufacturing engineering, plant engineering, research engineering, fabrication engineering and sales engineering.

Comments on life at Tech: "My career at Lawrence was a most rewarding experience. The problems encountered served as learning processes in themselves. Personal involvement in the solution to some of these problems was probably my greatest reward."

Michael Everett

Herschel Feinblatt Born in Washington, D. C.; attended Mumford High School. Special interests: Electronics and photography. Activities at Tech: I.E.E.E. and Engineering Week. Herschel does not plan to attend Grad school at present and wants to work as an electrical engineer.

Comments on life at Tech: "What life? I worked through out school and thus had no time for campus life."

Ralph Florio, Jr. Born in Natick, Massachusetts; attended Our Lady of the Lakes High School. Special interests: Chess, football and baseball. Activities at Tech: Chess Club, I.M. Club, S.A.E. and I.E.E.E. Ralph has no plans to attend Grad school and is still undecided about his professional life, but would like to get into Real Estate or personnel work at Pontiac Motors Division.

Comments on life at Tech: "School work at Tech wasn't always easy, but was challenging. Most professors showed an interest in the student's work, which has helped me through some rough courses."

Richard R. Doebler Born in Detroit, Michigan; attended Pershing High School. Activity at Tech: A.S.T.M. Rich plans to work in construction.

Harold L. Donnelly Born in Detroit, Michigan; attended Cooley High School. Is a member of Redford Township Jaycees. Plans to do graduate study in marketing and eventually work in the field of Marketing and Industrial Sales.

Chris Dow

Dennis Dow Born in Detroit, Michigan; attended Saint Gregory High School. Activities at Tech: M.S.P.E. and S.A.E. Dennis plans to work for a Masters Degree in Mechanical Engineering or Business.

George Drake

John Joseph Dziurman Born in Hamtramck, Michigan; attended St. Ambrose High School. Special interests: Detroit Junior Board of Commerce, Provide low income housing, Y.G.I.C. Investment Club and interested in all the arts. Activities at Tech: Secretary-Treasurer of evening college - - - Junior class, President evening college, Senior class, A.I.A., Who's Who in American Colleges and Universities, Blood Drive Committee and Food Committee. John plans to obtain a Masters Degree in Urban Planning and/or Architectural Design. John plans to practice architecture, be active in the American Institute of Architects, obtain a National Registration and use his knowledge and background to provide design guidance for social and community problems. Comments on life at Tech: "The years spent at L.I.T. will always be held in my highest regard. The school, the instructors, and my fellow students have all given me knowledge and friendships that will endure a lifetime. I only hope I have contributed equally to them."

Lawrence D. Francek Born in Port Huron, Michigan; attended Notre Dame High School. Special interests: Skiing, hunting, camping, canoeing, all outdoor sports and a member of the Skiwi Ski Club of Detroit. Activities at Tech: Vet's Club, A.M.A., A.S.T.D., I.M. Club and Intramural baseball (the Offensive team). Lawrence plans to apply for Grad school after he finds out where he will be working, and he plans to start his professional life in the field of purchasing.

Comments on life at Tech: "While at Lawrence Tech I have made many acquaintences and hope to keep in touch with a few of them."

David C. Geofftey

Don Giroux

William Gniewek

Ralph E. Gordinier, Jr. Born in Highland Park, Michigan; attended Redford High School. Special interests: Photography, art, sport aviation and youth activities. Ralph plans for a possible M.B.A. at U. of M. He plans to work at Ford Motor Company as a Product Engineer.

Comments on life at Tech: "I spent a few more years here than I planned on, but I'm thankful that there was an L.I.T. and proud of it. Since all my time was at night school, I can attest to the rigors of the M.E. curriculum. I hope that in the future it can be shortened and revised to include more of the finer arts, which I particularly enjoyed."

Edward Gordon

Kenneth P. Hojnacki Born in Dearborn, Michigan; attended Osborn High School. Special interests: Boat racing, water skiing, hunting, football and snow skiing. Activities at Tech: Kappa Phi Sigma Fraternity, Ski Club, Chess Club, Newman Club and S.A.E. Ken has no plans at present for Grad school. He plans to be a project leader in machine tools.

Comments on life at Tech: "Very little social life. You have to go out and find your own. No sports, this is bad because it causes school spirit to fall short from what it should be. Lack on qualified instructors, one or two different instructors will teach most of junior and senior courses. No girls, should be a one to one ratio."

Steve J. Hornbeck Born in Detroit, Michigan; attended Berkley High School. Special interests: Sports (baseball, football, hockey, etc.) and automobiles. Activities at Tech: S.A.E. and Engineer's Week Project. Steve would like to receive a Masters in Business Administration and work in research for an automobile company in the space industry.

Comments on life at Tech: "There seems to be a lack of cohesiveness of the student body, possibly due to the lack of varsity sports and/or no real campus. Everybody comes and goes their separate ways."

Robert O. Houghtaling Born in Detroit, Michigan; attended Thomas M. Cooley High School. Special interests: Hunting, fishing, stamp collecting, gun collecting, N.R.A. Rifle & Pistol instructor and N.R.A. & Michigan Hunter Safety instructor. Activities at Tech: I.M. Club President, A.S.T.D., Marketing Team Captain, C.P.O., and Vice-President of Student Government. Robert plans on getting a Masters in Business Administration.

Franklin Howard

Addison Igleheart

Ira Jannett

Glenn Grace

Benjamin D. Gralla Born in Hamtramck, Michigan; attended St. Florian High School. Special interests: Competition drag racing, water and snow skiing, fishing, traveling and snorkle diving. Activities at Tech: Ski Club, Newman Club and intramural baseball. Ben has no plans for Grad school and plans to own his own business.

Jim Grigsby

Mario Grillo

Norman J. Grudell Born in Detroit, Michigan; attended Garden City High School. Special interest: Golf. Norman plans to attend Grad school part time while working. He is going to start his professional life as an engineer and then go into teaching.

Neal Hahka

Ronald C. Hatcher Born in Detroit, Michigan; attended Redford High School. Special interests: Hunting, fishing and shooting. Activities at Tech: S.A.E. and M.S.P.E. Ron plans to work in conveyer engineering and sales.

Comments on life at Tech: "I am very pleased with my stay at L.I.T. I believe that the curriculum is based on what will be expected of me as a Mechanical Engineer. The instructors are of high caliber, and having been involved in industry, teach their courses in an industry-orientated manner."

Steven W. Heaton Born in Detroit, Michigan; attended Troy High School. Special interests: Tennis, fishing and working on old cars. Activities at Tech: I.M. Club, A.M.A., A.A.A., Who's Who in Colleges, Veteran's Club Treasurer, Business Manager of Publications, Publications Board Chairman, Dean's List. Steve will attend Wayne State University starting in June 1970. In his professional life, he plans to make a lot of money.

Comments on life at Tech: "Many of the things I learned here did not come from text books."

Norman Herrmann

David M. Hilliard Born in Highland Park, Michigan; attended Redford Union High School. Special interest: "The good life." Activities at Tech: Bowling League and A.I.A. Dave has no plans at present for Grad school. He plans to find out what the whole field is in general, from the practice side. Later he hopes to select something more specific with which he will be happy.

Comments on life at Tech: "Generally speaking, the educational side of the school is very good as far as technical information and theory are concerned. Very little insight is offered into actual practice of ones major. Social life leaves a great deal to be desired. There has been little in the way of school functions to bring people together (girls particularly lacking) to show them how to handle themselves with people. I believe that through the hard work of the students themselves, things are improving and will continue to do so."

Stanley Hodur Born in Austria; attended Wilbur Wright High School. Special interests: Football, hunting, swimming, boating, water skiing and baseball. Activities at Tech: Baseball (Offensive Team) and I.M. Club. Stan has no plans at present for Grad school and eventually plans to work in some type of management.

Comments on life at Tech: "The four years which I have spent here were for the most part short and sweet."

Gerald E. Hoeflein Born in Detroit, Michigan; attended St. Catherine High School. Special interests: Tennis, track and field, cycling and model railroads. Activities at Tech: Newman Club, Cycling Club, A.I.A. and intramural football and baseball. Gerald has no plans at present for Grad school, but possibly will get a degree in Housing. He plans to do primarily residential designing.

Comments on life at Tech: "Life at Lawrence Tech has taught me to use my creative imagination to find social activities off campus."

Kenneth Jedlick

William Jenuwine Born in Detroit, Michigan; attended St. Bernard High School.

Gordon Wayne Jeneu Born in Detroit, Michigan; attended Plymouth High School. Special interest: Flying. Gordon has no plans to attend Grad school.

Comments on life at Tech: "For a nite school student?"

Raymond J. Jovick Born in Uniontown, Pennsylvania; attended D.I.T. High School. Special interests: Golf, coin collecting and stock market analysis. Activities at Tech: M.S.P.E., A.M.A. and I.M. Club. Ray plans to attend Grad school at a future date. He plans to work in engineering management.

Comments on life at Tech: "I attended night school."

Brian Judge

Armen Kalaydjian

Karl Kandler, Jr.

George Kanelas

Jerald Kayne Born in Monte Video, Uruguay, S. A., attended Cass Technical High School. Special interest: Travel, food and people. Activities at Tech: Industrial Management Club, Marketing team, American Society for Training and Development (Student Chapter), American Accounting Association, Secretary-Treasurer for Senior Class, nominated by school to Who's Who among Students in American Colleges and Universities. Jerald has no plans at present for attending Grad school, and he would like to work with a public accounting firm in the Southwest, and eventually be a Certified Public Accountant.

Comments on life at Tech: "I wish I was as intelligent and alert as some of my instructors and fellow students believe me to be. If this were so, I could have directed my energies to more satisfying things, such as Harold's and other extracurricular activities."

James Kent

Clifford L. Kirkland

Walter Kleban

Thomas Langridge

Jack G. Lawler Born in Piedmont, Alabama; attended Piedmont High School. Jack is presently a Production Superintendent for Burroughs Corp. and plans to continue in this line of work.

Dan Lehnert

Larry Lenski

Robert Leonhard

Michael William Liedtke Born in Detroit, Michigan; attended Southfield High School. Special interests: Skiing, swimming and stamp collecting. Activities at Tech: M.S.P.E. and S.A.E. Mike plans to attend U of M to receive M.B.A. and will probably work for an automotive company.

Comments on life at Tech: "My personal individual goals for bettering my future have been fulfilled at Lawrence Institute of Technology. The devotion of the students toward getting an education is genuine and sincere, after all, that is what college is all about."

Joseph G. Kotlarek Born in Detroit, Michigan; attended St. Andrew High School. Special interests: Wood model building and music. Joe plans to start Grad school in September of 1970. He plans to work with his present company.

Comments on life at Tech: "Enlightening experience."

Jeffrey A. Kraudelt

Daniel J. Krause

Erick Wilhelm Krumrei Born in Detroit, Michigan; attended Royal Oak Senior High School. Special interest: Photography. Activities at Tech: Vets Club. Erick plans to attend Michigan State Extension.

Comments on life at Tech: "Excellent instructors. School will become leading institution in future years."

Howard Kuhn

Frank Kuroda

Marlyn K. Lisk Born in Detroit, Michigan; attended Denby High School. Special interests: Wood crafts, camera and baseball. Activities at Tech: Work full time at Fruehauf Corp., Currently on negotiating committee for Fruehauf Unit of Local 889 and walking picket line since November 19, 1969, with about 300 office employees. Marlyn has no plans at present for Grad school. He plans to continue his present interest in engineering, into the design area and use his experience in the union to help establish a better working relationship between management and unions.

Comments on life at Tech: "This was a most beneficial experience for me at L.I.T. in the Tech. Inst. Program. I would recommend programs at L.I.T. for anyone who wants to further his education. The students here are hard working people in the day time and tough competitors at night in the class room . . . may it always be that way . . ."

Ronald Edward Luczak Born in Dearborn, Michigan; attended Theodore Roosevelt High School. Special interest: Athletics. Activities at Tech: I.M. Club and intramural sports coordinator. Ron has no plans to attend Grad school and plans to work in the production control area.

Donald J. McCluskey Born in Detroit, Michigan; attended Trenton High School. Special interests: Aviation, golf and softball. Activities at Tech: Freshman Class President, Student Council Representative, Secretary of A.S.T.D., I.M. Club, Intramural Football, Dean's Honor Roll, Scholarships from the Detroit News, Chrysler and Dean's Scholarship. Donald plans to attend Graduate school in the near future.

Richard McKee

David McRae

Robert McViegh

Robert MacGillis

Gary Marchenia

Walter Masciulli Born in Italy; attended Lowrey High School. Special interests: Soccer, swimming and dancing. Activities at Tech: Member of the National I.E.E.E. Professional Organization and the Treasurer of the Local I.E.E.E. Chapter. Walter plans to work and go to Grad school on a part time basis. He wants to be a successful systems control engineer.

Comments on life at Tech: "There seems to be a business-like attitude on the part of most students. However, I did find the opportunity to build some very good friendships. Most students are not motivated to join extra curricular activities, partly because they have to much homework and partly (mostly) because there is a shortage of coeds on campus."

Ken W. Maust

Glenn Mayhew Born in Detroit, Michigan; attended Southfield High School. Special interests: Working with engines, cars, motorcycles, restoring cars, carpentry, sports, skiing and sailing. Activities at Tech: A.S.T.D., Vice-President C.P.O. and I.M. Club. Glenn is thinking of attending Grad school, when he desides what field of study he would like to pursue. He would like to work with people and company products simultaneously and work as far as his capacity will allow.

Comments on life at Tech: "Lawrence is a nice school, which is well located for the entire city and area. I have found this convenient. The life here is much what I would expect from any commute college. My education has been interesting and the students at Tech are nice to work with."

Clarence Miller

Kenneth G. Morse

Charles Andrew Murray Born in Cumberland, Maryland; attended Utica Community High School. Special interests: Photography, fishing and camping. Activities at Tech: I.E.E.E., Glee Club and Ham Radio Club. Charles is interested in both an engineering undergraduate degree and further study in the business administration field. He plans to work as a salesman for industrial and material handling equipment.

Comments on life at Tech: "Commuting to and from L.I.T. was both beneficial and a hinderance, at time. I would like to see the library grow to the size of a great institution, in order that students would not have to look elsewhere for research information. L.I.T. has shown me both its good and its bad sides. As it often does, the good far outweighs the bad, and the school comes shining through with a formidable reputation as a good, hard, engineering school."

Ronald G. Myers Born in Detroit, Michigan; attended Lee M. Thurston High School. Special interests: Coin collecting, chess, hockey and golf. Activity at Tech: A.I.A. Ron has no plans to attend Grad school at present. He hopes to become a registered architect in the state of Michigan.

David Naugle

Richard Nelden

Marvin F. Ninneman

Lawrence Miller

Wayne Lynn Miller Born in Detroit, Michigan; attended Cass Tech. High School. Special interests: Painting, sculpture, music and ice hockey. Activities at Tech: A.I.A. and Circle K. After graduation Wayne plans to work in the Peace Corps and after that, work in an architectural office.

Comments on life at Tech: "What Life?"

David T. Mills Born in Detroit, Michigan; attended Hazel Park High School. Special interests: Camping and boating. Activities at Tech: I.E.E.E., M.S.P.E., Chess Club and Vet's Club. David would like to get into invironmental engineering.

Comments on life at Tech: "I have had to work while attending L.I.T., which made it impossible to participate more actively in a lot of the school activities. This is my only regret."

Emery Molnar

Dennis P. Monaghan

Larry Edwin Monigold Born in Detroit, Michigan; attended George A. Donero High School. Special interests: Hunting, working on old cars, fishing and fast-pitch softball. Activities at Tech: Michigan Society of Professional Engineering, Treasurer, Society of Automotive Engineering and Intramural sports. Larry will probably attend night school to further his education. He intends to work hard and learn all he can in which ever field of mechanical engineering he picks to pursue.

Comments on life at Tech: "Life at Tech for myself was a hard one, but very enjoyable. I would have to say that I enjoyed the last two years the most of all; for it was during this time that I met most of my best friends and was able to do a lot of valuable, interesting laboratory work at the college."

Francis E. Noggle (Frank) Born in Niles, Michigan; attended Niles Senior High School. Special interests: Bowling, model building, gardening, reading, an avid sports spectator (except baseball). Activities at Tech: Senior class President, Chairman - Student Government Judicial Committee, Student - Faculty Advisory Ad Hoc Committee, M.S.P.E. Vice-President, S.A.E., Veteran's Club, Engineering Society of Detroit, Finance Chairman of American Society of Body Engineers International Technical Convention 1967 & 1968 and member of Who's Who 1969-70. Frank is considering Law School or Business Administration at Wayne State or the University of Michigan. He plans to resume his career as a Product Development Engineer for Ford Motor Company.

Comments on life at Tech: "Life at Lawrence Tech, or anywhere else for that matter, is what you make it. Anyone can and should participate actively in the activities of his or her choice. Obviously, an overindulgence in activities can also lead to scholastic ruin, so a little caution is needed too. I found my years at L.I.T. extremely busy, interesting and rewarding."

Nicholas J. Novak Born in Detroit, Michigan; attended Lee M. Thurston High School. Activities at Tech: Vice-Chairman of S.A.E. and member of M.S.P.E.

Comments on life at Tech: "It's been rough, but I have learned a lot here at Tech. To the great bunch of guys I've met, Good Luck."

Terrence O'Brien Born in Detroit, Michigan; attended Chippewa Valley High School. Special interests: Stereo music systems and Christian youth work. Activities at Tech: President of Lawrence Christian Fellowship, Society of Automotive Engineering. Terry would like to get a job and go on to Grad school at night. He would like to do research for a large company or get into sales of some kind.

Comments on life at Tech: "I fell behind my first term at Tech and have tried hard to catch up. My math and science courses were generally no problem, but English courses have been rather hard on me. Most of my social activities are through my church, so I have not been very active in social clubs or organizations. I have, however, enjoyed the fellowship of many of my classmates and the fellows in Lawrence Christian Fellowship."

Dennis R. O'Connell Born in Detroit, Michigan; attended Allen Park High School. Special interests: Reading and Sports. Activities at Tech: President of C.P.O., Vice-President of the I.M. Club, Treasurer of A.S.T.D., a member of Student Government, Drama Club, Dean's List and Who's Who. In September Dennis plans to attend Law School.

Larry Oleszko

Douglas J. Parnin Born in Detroit, Michigan; attended Franklin High School. Special interests: Painting and photography. Activity at Tech: Student Member A.I.A. Doug has no plans for Grad school and would like to have an architectural office of his own some day.

Lawrence J. Patritto Born in Detroit, Michigan; attended Pershing High School. Special interests: Working with wood, fishing and reading. Activities at Tech: Sigma Kappa Psi (Secretary and Vice-President), S.A.E. and A.S.T.M.E. Lawrence plans for a M.B.A. at Wayne or U. of M. Extension. He wants to fulfill his goal to achieve Project Engineer or Sales Representative.

Comments on life at Tech: "Life at Tech has been interesting since I have spent 12 years (4 years Tech Inst., 8 years BSIM) totally in night school - - - I would like to see campus in day lite sometime - - - I have learned a great deal by watching the school grow and I have become very proud to be part of the L.I.T. enrollment. I feel that by working days and schooling nites has allowed me to apply much of what I have learned."

Dan T. Pawl Born in Highland Park, Michigan; attended Clawson High School. Special interests: Football, baseball, basketball and camping. Activity at Tech: Football. Dan plans to attend Grad school part time while working. After a number of years of experience he plans to teach.

Thomas Pembroke Born in Detroit, Michigan; attended Southfield High School. Special interests: All sports and music. Activities at Tech: Intramural softball, A.S.T.D. and Marketing Team. After a short period of time, Tom would like to go to Grad school. He would like to work for a manufacturing organization, perhaps in the sales or purchasing line.

Joel A. Perkins

Philip M. Peters Born in Detroit, Michigan; attended Grosse Pointe High School. Special interests: Golf, bowling and professional sport spectator. Activities at Tech: Intramural football, Vice-President of Senior Class, S.A.E. and M.S.P.E. Philip plans to go on and get a degree in law or business and be either a patent lawyer or work in engineering management.

Ralph R. Petersen Born in Ann Arbor, Michigan; attended Clawson High School. Special interests: Sports and education. Activities at Tech: Assistant Editor of Tech News, Publication Chairman, A.S.T.D. and A.M.A. Ralph wants to attend Grad school, but has no specific plans. He will work in distribution management.

Comments on life at Tech: "I think L.I.T. offers the person who wants position and responsibility a chance to achieve them by only asking for them."

Vincent Peter Render Born in Pontiac, Michigan; attended Milford High School. Special interests: Swimming, football, skiing and sports in general. Activities at Tech: M.S.P.E., S.A.E., Student Government Representative for S.A.E., served on exam committee and interviewing committee. Vincent plans on eventually going to Grad school to get a degree in either business or law. He has no positive plans about his profession.

Comments on life at Tech: "I am proud to be a graduate of L.I.T., and like any organization that you're a part of, you can find some faults, and you can find some good points. Life is what you make it."

Scott Ries Born in Trenton, Michigan; attended Romulus High School. Special interests: Flying, traveling and skiing. Activities at Tech: I.M. Club and A.S.T.D. Scott has indefinite plans for Grad School. He plans to achieve personal satisfaction in his professional life.

Erick Riese Born in Detroit, Michigan; attended Harper Woods High School. Special interests: Amateur radio, photography and skiing. Activities at Tech: Amateur Radio Club, Ski Club, A.S.T.D. and I.M. Club. Erick has no plans at present for Grad school. He wants to try to get an interesting job.

Comments on life at Tech: "For the most part life at L.I.T. consisted mainly of going to the many required classes. Two things the Tech needs very much, more girls and more social functions. I think a school should have more to offer than just school classes. I realize that much of this rests on the fact that the students themselves, do not live close enough to the school, to join in social activities."

Paul V. Rivetto

Roy Romano

Terry Rood

Donald L. Roy Born in Detroit, Michigan; attended Osborn High School. Special interest: Road racing. Activity at Tech: Chairman of student branch of I.E.E.E. Don plans to attend Grad school and in his professional life he plans to "play it by ear, with personal satisfaction my primary goal."

Doug Rudy

Vincent Felice Salvia Born in Detroit, Michigan; attended Redford Union High School. Special interests: Sports and music. Vincent plans to work towards M.B.A. at Wayne State and remain an employee at present firm seeking future experience and advancements.

Comments on life at Tech: "Night school is a long road towards a degree, but the environment is more beneficial than day school. Attending L.I.T. has made me appreciate the advantages of an advanced education; both on the job and in my personal life. I am quite pleased with the beautiful L.I.T. campus and convenient location. The 'master plan' for the school is excellent and I wish Dr. Buell the best of luck in his worthwhile endeavor."

Nicola Sbrocca

Rolland D. Schlosser Born in Flint, Michigan; attended Flint Northern and Thurston High Schools. Special interests: Bowling and swimming. Activities at Tech: Intramural football, bowling and softball, corresponding secretary for A.I.A. Rolland plans to go on and obtain a degree in either Civil Engineering or Structural Engineering. He wants to work in design of structural systems, perhaps with the use of computers.

Comments on life at Tech: "Tech is a good school to get a good education, but the students need to develop more school interest. Getting involved in one of the groups or activities in school as soon as they can when they start here is important. A field house and L.I.T. Varsity Basketball team would be of tremendous benefit."

James Schropp Born in Detroit, Michigan; attended Highland Park High School. Special interests: Swimming, football and riding. Jim hopes to attend Wayne Grad school and continue in the field of administration.

Steve Pinneo

Walter Pociask

Roger Porte Born in Detroit, Michigan; attended Henry Ford High School. Special interests: football, baseball, bowling and reading. Roger would like to pursue a Masters degree in Business Administration in the distant future at either U. of D. or Wayne State. He would like a job in the field of production control and climb the ranks of higher management.

Comments on life at Tech: "The school has provided for me an excellent opportunity to further my education and to meet many interesting people. The instructors here have, for the most part, presented the material in a most informative way. This I feel has given me an opportunity to better understand the business world."

Ken Pawlowski

Phillip Edward Quidort Born in Alma, Michigan; attended Alma High School. Special interests: Architecture, magic, sports, reading and music. Activities at Tech: A.I.A. (Student Government Representative and Sophomore and Junior Director) and bowling league. Phil has no plans for Grad school and plans to become a registered architect.

Michael James Raymond Born in Detroit, Michigan; attended Franklin High School. Special interest: Photograph. Activity at Tech: A.I.A. Mike has no plans at present for Grad school and would like to work for a designorientated architectural firm. He would also like to be responsible for that firm's photographic needs.

Dale Scrace

Arthur Seeley

David Sepesi

Don Serwonski

Charles R. Sexton

Don Sikora

Benjamin J. Swaine, Jr. Born in Detroit, Michigan; attended Thurston High School. Special interest: Interests in business. Activities at Tech: Newman Club, Sigma Phi Epsilon Colony, Student Government, Bloodbank, Elections Chairman and Industrial Management Club. Ben plans to enter Grad school after the service. Then he plans to enter public accounting after one year in industry.

Richard L. Swarthout Born in Detroit, Michigan; attended Central High School in Jackson, Mississippi. Special interest: Boating. Activity at Tech: I.E.E. Secretary. Rich plans on going to Grad school, but has no specific plans.

Comments on life at Tech: "Felt I had very good instructors and preparation for electrical engineering and developed some good friendships."

Charles Swenson

Alexander T. Swiderki Born in Detroit, Michigan; attended Osborne High School. Special interests: Music and waterskiing. Alex has no plans at present for Grad school.

Comments on life at Tech: "I have found my stay here at L.I.T. very worthwhile."

Philip Alexander Swiderski Born in Detroit, Michigan; attended Notre Dame High School. Special interests: Fishing, boating, painting and photography. Phil does not plan to go to Grad school and wants to work towards receiving his registration as an architect.

Robert Tattersfield

Timothy P. Teehey Born in Detroit, Michigan; attended Dearborn High School. Special interests: Photography, painting and astronomy. Activity at Tech: Member of the student chapter of A.I.A. Tim plans on getting a Master's degree in architecture or city planning and would like to own an architectural firm.

Stephen J. Tertel, II Born in Detroit, Michigan; attended Cody High School. Special interests: Music, sports, bowling and cars. Activities at Tech: A.I.A. President, Glee Club, Student Government Judicial Committee, Representative for Senior Class, intramural sports and Who's Who. Steve has no plans at present for Grad school and will help the architectural profession in anyway possible.

Comments on life at Tech: "The last five years have been enjoyable, but very difficult. The students here must take more of an active interest in their school, become involved to help bring about the necessary changes the school needs to keep up with the times. All in all, the years spent at L.I.T. will never be forgotten."

Douglas W. Teubert Born in Detroit, Michigan; attended Mackenzie High School. Special interests: Photography, Tropical fish, baseball and bowling. Doug plans to work towards his C.P.A. and then proceed on towards a M.B.A. He wants to earn enough money to take care of his family and to advance as far as he can.

Comments on life at Tech: "Basically life at Lawrence Tech has been good. The teachers are good, however, I think a little more emphasis should be put on English and a little taken away from Mathamatics."

Arthur R. Thomas Born in Grosse Pointe, Michigan; attended Lakeview High School. Special interests: Music and Model Railroading. Activities at Tech: I.M. Club and A.S.T.D. Art does not plan to attend Grad school and plans to do supervisory work in automotive engineering.

Comments on life at Tech: "Life at Tech was pleasant, but there seemed to be a shortage of social functions and a lack of school spirit. There should be more school sponsored activities."

James M. Thompson Born in Detroit, Michigan; attended Frank Cody High School. Special interests: Electronics, music and reading. Activities at Tech: I.E.E.E. Jim plans to go to Grad school to study electrical engineering.

Comments on life at Tech: "Life at Tech is simple for me in a social sense. This is because the academic pressure is so great in engineering. I guess life at Tech is what you make it."

Thomas Tighe

Angelo Torcolacci

Fred Urbaniak

Yizy Weingarten Born in Isreal; attended Cass Technical High School. Special interests: Stamps, coins, photography and tools. Yizy plans further study in city planning or architecture and wants to work professionally as an architect or city planner.

Mike Wierzbicki

James D. Wiggins Born in Fort Beivoir, Virginia; attended Cass Technical High School. Activities at Tech: a member of Sigma Phi Epsilon Fraternity, President of Inter-Fraternity Council for 2½ years, President of Student Government for 3 years, Ski Club and Psychology Club. Jim plans to attend Law school to study Business or Finance and in professional life, hopes to be "Very, very successful."

Gary M. Wood Born in Flint, Michigan; attended Waterford Kettering High School. Special interests: Water sports and antique automobiles. Activities at Tech: Staff member of Tech News and membership in A.S.T.D., A.M.A., and I.M. Club. Gary plans to attend a local university in night school to attain an M.B.A.

Comments on life at Tech: "Lawrence Tech has not afforded an abundant social life. By its nature it has been merely a tool by which I hope to attain a better position in my professional career. Lawrence Tech has allowed some unique experiences in dealing with the human factor."

John C. Wright Born in Highland Park, Michigan; attended Berkley High School. Special interests: Writing, music and electronics. Activity at Tech: Mens Glee Club. John has no plans for Grad school and wants to work as an electrical engineer.

Comments on life at Tech: "Life at L.I.T. is mostly hard work and study. However, it isn't all hard work and no play. There are enough activities to occupy anyones interest, but not enough to take away from any study. I have found L.I.T. to be a good, friendly atmosphere to receive an education in, and after all isn't tht why we're here?"

Charles Lynn Zeese Born in Detroit, Michigan; attended Lincoln Park High School. Special interests: Swimming, water skiing, boating, card playing, tennis and bowling. Activities at Tech: S.A.E. Charles will choose a school and courses after determining what type of professional job he is best suited for.

Comments on life at Tech: "BORING. What activities I am most interested in are not offered or allowed at L.I.T., especially card playing. Teachers are good as well as the general courses offered; however, the extra curricular activities lack many things to be desired."

Acknowledgements

The 1970 Yearbook wishes to thank all those who contributed to the creation of this publication.

To Scott Sherman, thanks for the outstanding lens art. To Glenn Nief, thanks for your blood. To Bill Schmidt and Greg Bakalich, who contributed slave labor and artistic talent, much thanks.

Thanks to J. Dudley for creating worthwhile events and never ending political confrontations.

A special thanks must go to the Administration, for without you, the extent of this publication could never have been realized.

To R. Prange, Jr., goes a very special thanks. Without your lens, graphic skill, imagination, and promptness, the 1970 Yearbook could never have been possible.

— Michael J. Thomas, Editor
