# Foreword

The college is now in its twenty-sixth year and during this period has provided a needed educational facility which was dedicated to the education of engineers and scientists.

Looking back, we have much to be proud of; several thousand graduate engineers and countless others who have had terminal courses, and have received their education without high tuition or excessive fees.

Now, at the beginning of the "Space Age" we have a stimulating challenge to fulfill; the ever increasing need for trained engineers and scientists.

Through the past years, you, the graduating class of 1958 have gathered in the halls and classrooms in preparation for the educational accolade awarded in a graduation.

Now much of the future lies in your hands. To you have been given the tasks of tomorrow's achievements.

## **Dedication:**

Twenty-three years of faithful and sincere service to Lawrence Institute of Technology ended on January 2, 1958 with the untimely death of Doctor Gail P. Brewington.

Because of his help and encouragement, the students of Lawrence Tech will remember "Doc" Brewington as a man who established a firm foundation in science and instilled a joy in its attainment.

His untiring efforts for the advancement of the teaching of science resulted in curriculum changes patterned to meet present day engineering problems; this same enterprising spirit resulted in one of the finest introductory physics laboratories in the state.

His presence among us will always be felt; and with deepest respect we dedicate the 1958 L-Book to Doctor Gail P. Brewington.

**Our**

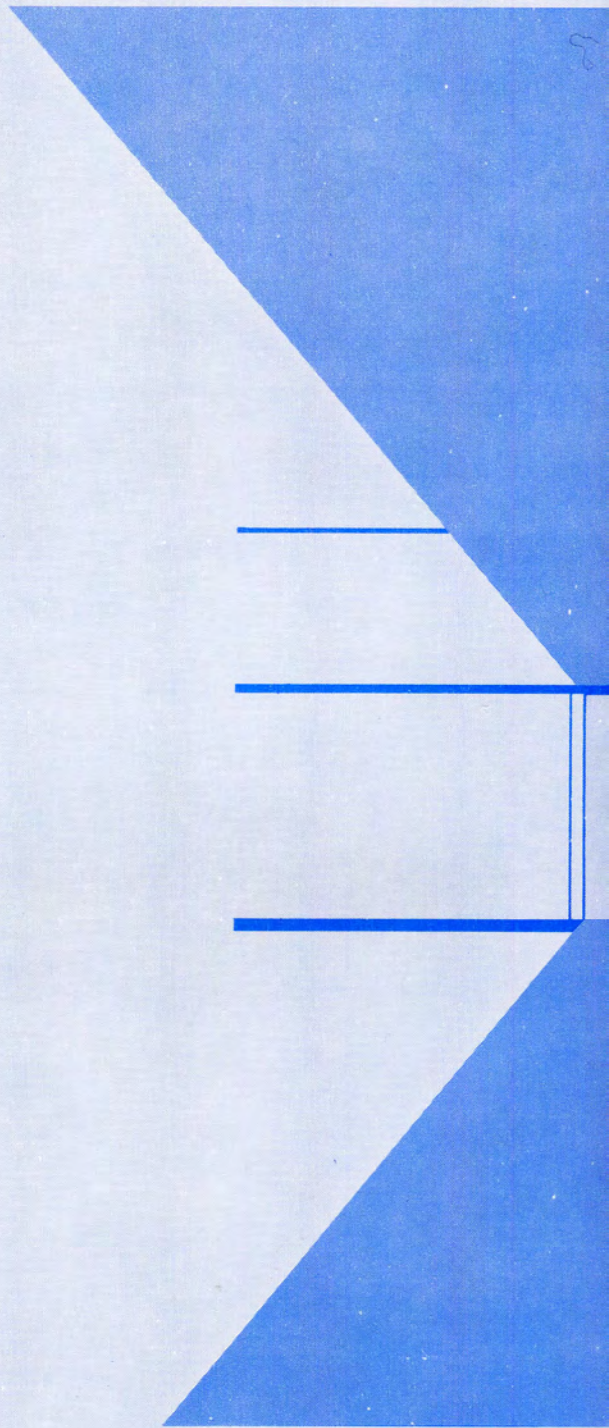

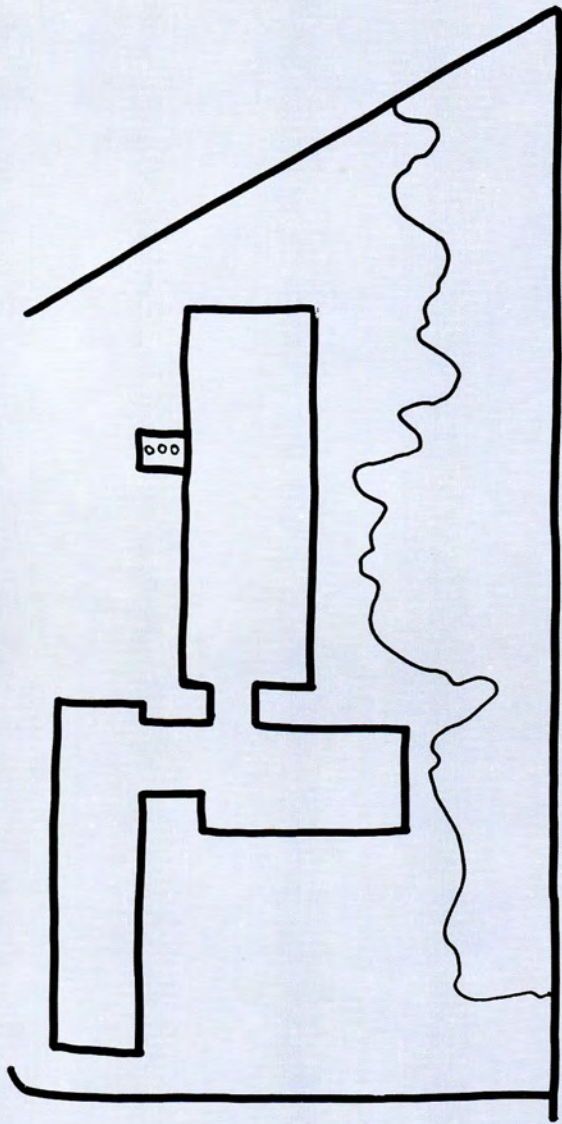

## Campus

# **ADMINISTRATION..**

The effective planning of the college business is the main function of our administration. This integral part of our school has been instrumental in the advancement and growth of Lawrence Institute of Technology

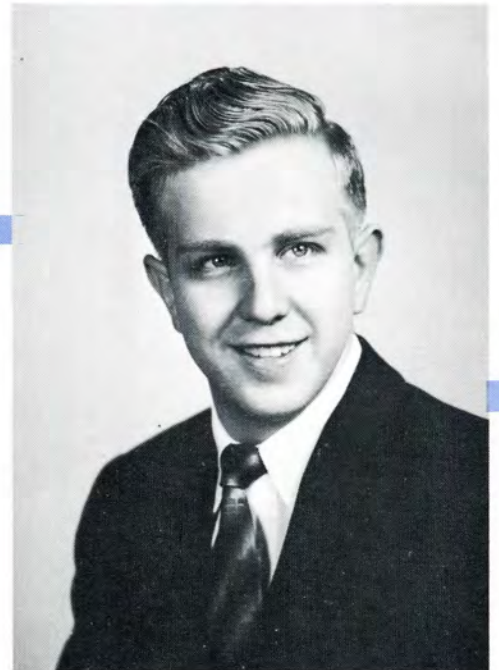

James W. Hobson,  
Assistant to the President

Genevieve G. Dooley,  
Registrar

H. B. VanBussum,  
Personnel Director

Henry Freigruber,  
I.B.M. Department

Claude Bream,  
Auditor

Michael L. Mitchell,  
Internal Auditor

Donald G. Ridler,  
Director of Student Activities

J. McDonald,  
Maintenance Department

Marion Rogers,  
Assistant to Registrar

Jeanne Preston,  
Secretary to President

Joan Laabs,  
Veterans Affairs Office

Muriel Drewek  
Student Activities Office

Laurene D. Stevens,  
Secretary to the Dean; day

Judith Erickson,  
Secretary to the Dean; night

Margaret Dale,  
Receptionist

Mary Landuyt,  
Librarian; day

Jo Anne Baker,  
Librarian; night

Margaret Riffle,  
I.B.M. Department

Elizabeth Feipel,  
Duplicating Department

Grace McNair,  
Clerk

Marie Renner,  
Cashier

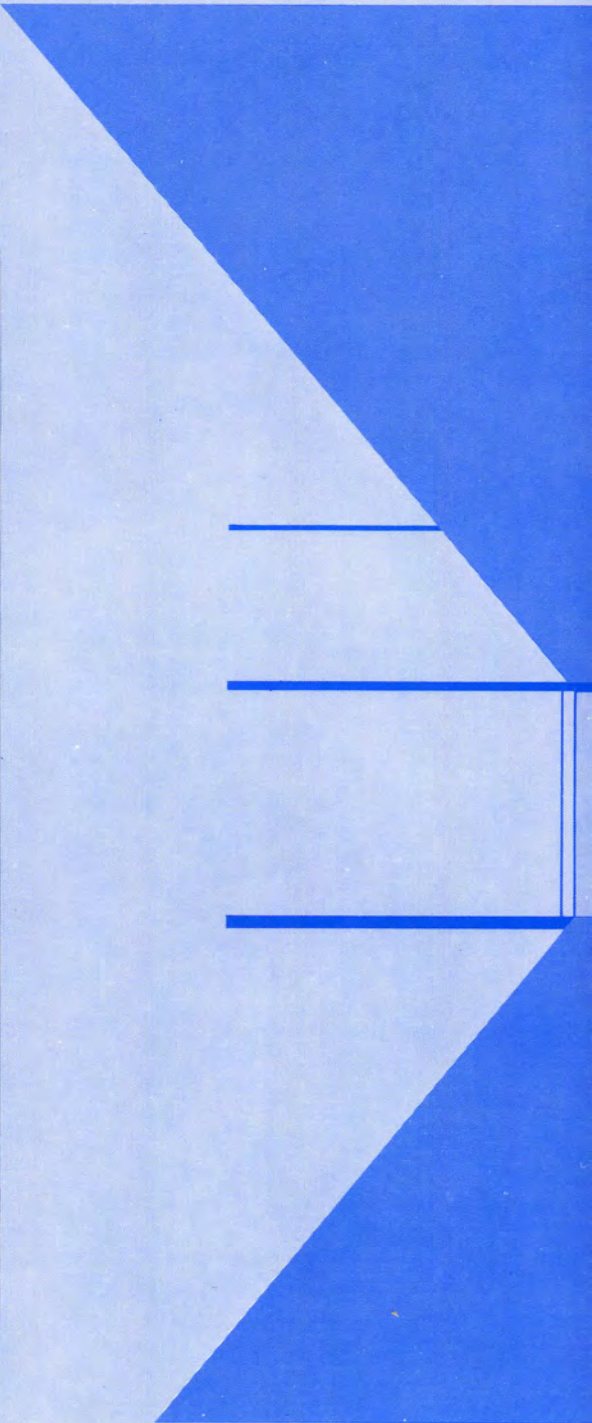

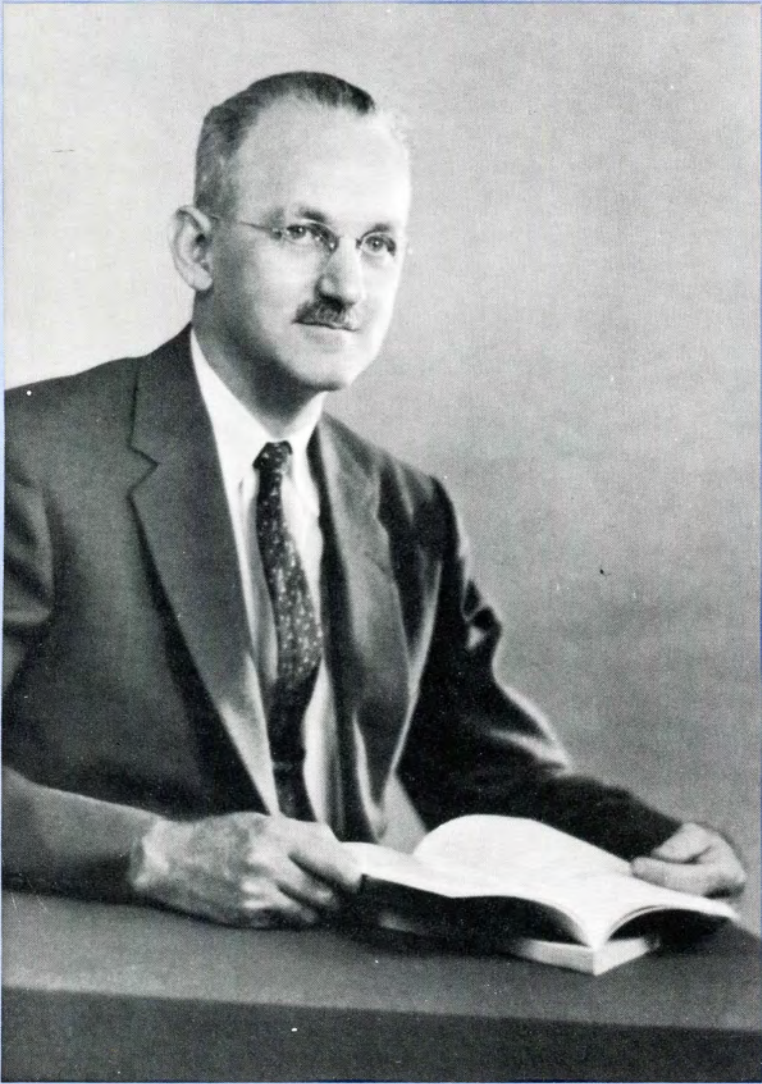

Lillian St. Angelo,  
Clerk

Martha Karl,  
Cafeteria Manager

Luise Hanke,  
Cafeteria Cashier

# **BASIC ENGINEERING...**

As the graduates prepare to leave school they will be taking more than just a piece of paper. They will have with them the knowledge gained through the association with the fine faculty which is maintained at our college.

Mr. Arthur C. Danielson,  
B.S., Wayne State  
University, 1939;  
M.S., Wayne State  
University, 1947.

Mr. John Gryniewicz,  
B.E.S., John Hopkins.

Mr. William Boyd,  
B. Ch. E., University of Detroit.

Mr. Virgil M. Batza,  
B.S., Wayne State  
University, 1950;  
M.A., Northwestern  
University, 1954.

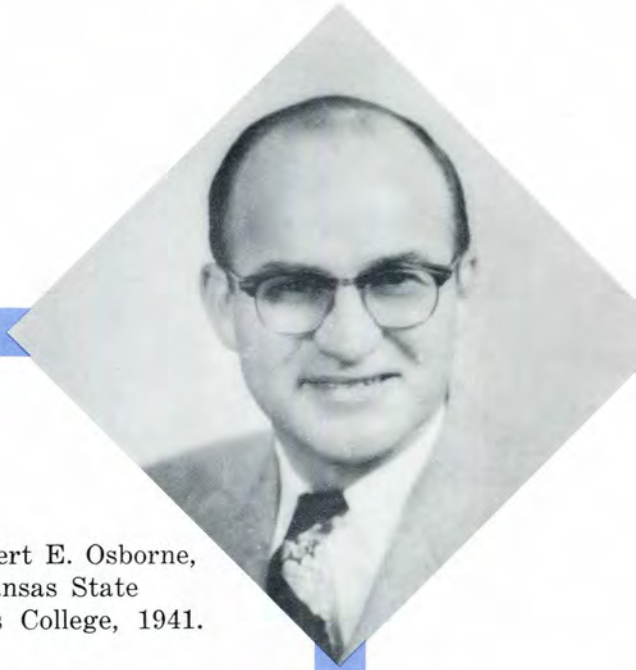

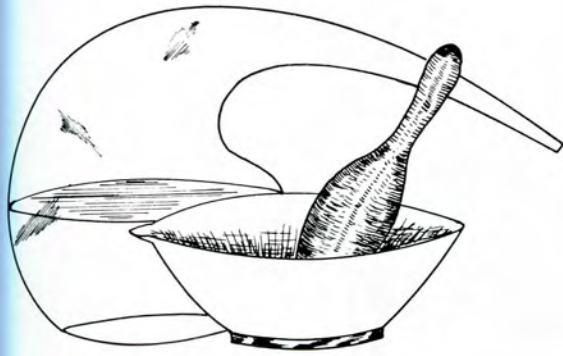

Mr. Harold C. Boothroyd, Chairman,  
B. Chemistry, Cornell University, 1921.

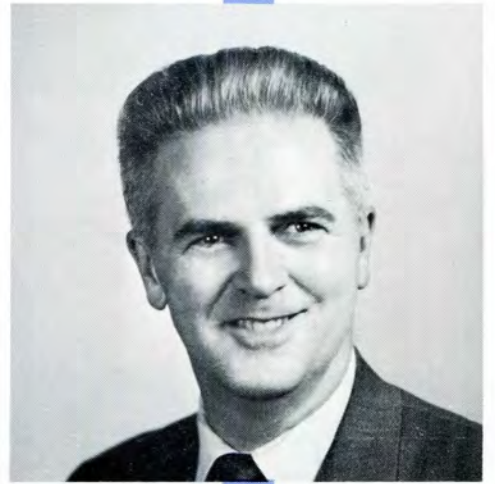

# Department

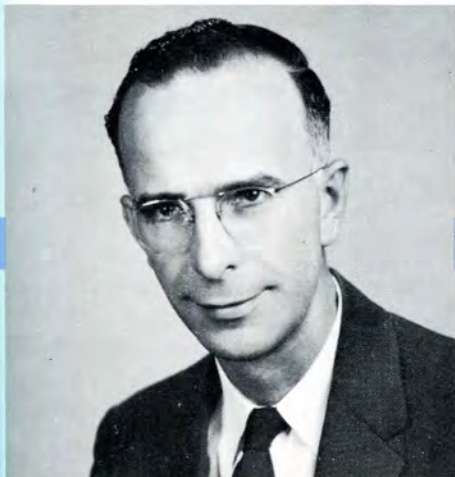

Mr. Loren Knowles,  
B.S. Chemistry, Physics,  
and Mathematics,  
University of Wisconsin,  
M.A. Physics.

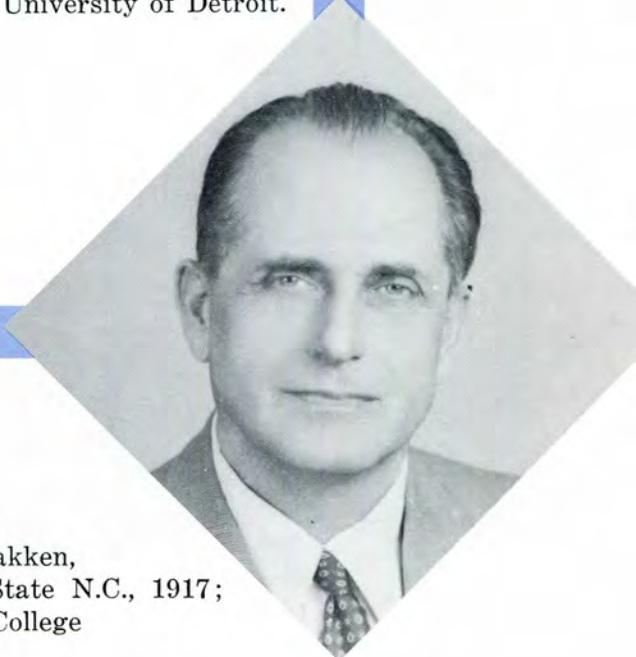

Mr. Robert E. Osborne,  
A.B., Kansas State  
Teachers College, 1941.

Mr. Van Buren Story,  
B.S., University of Detroit.

Mr. Victor B. Whitfield,  
B.A., Berea College, 1943.

Mr. Joseph E. Takken,  
B.S., Michigan State N.C., 1917;  
L.L.B., Detroit College  
of Law, 1923.

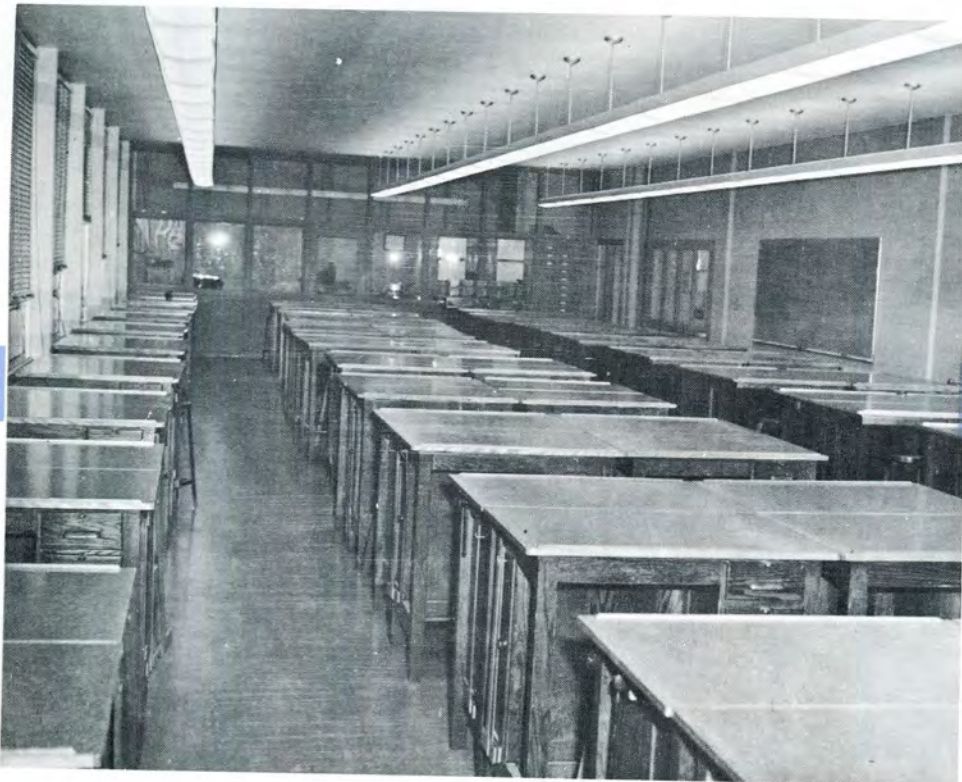

Mr. Kenneth A. Snoblin, Chairman,  
B.S., University of Florida, 1951;  
M.A., University of Florida, 1953.

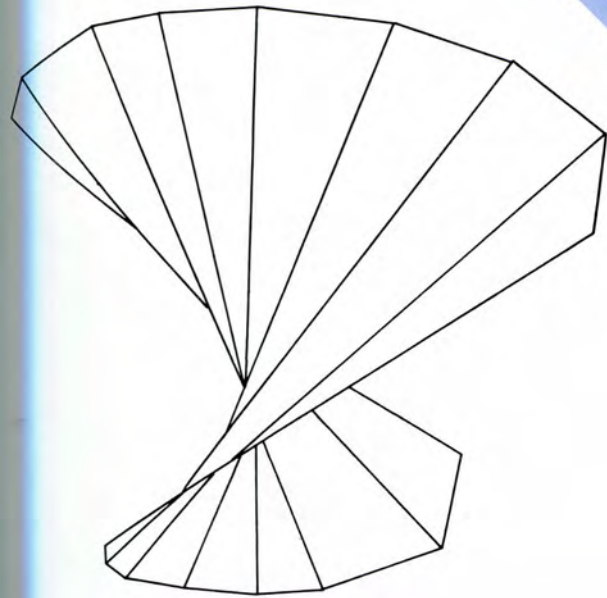

Mr. James Arnett,  
B.S.E., University of Michigan.

Mr. Herbert Shell,  
B.M.E., Wayne University, 1940.

Mr. Steve Toth,  
B.S.M.E., Lawrence Institute, 1953.

Mr. Patrick Blaney,  
M.F.A., Fordham University.

Mrs. Zenobia Bartlett,  
M.A., University of Michigan.

Mr. Herbert G. Williams, Chairman,  
A.B., Ohio State University;  
B.S.Ed., Bowling Green State University;  
M.A., Northwestern University;  
M.A., Bowling Green State University;  
M.A., University of Michigan.

Mr. David Gibson,  
A.B., University of Michigan.

Mr. Neal Powers,  
B.A., Michigan State Normal College.

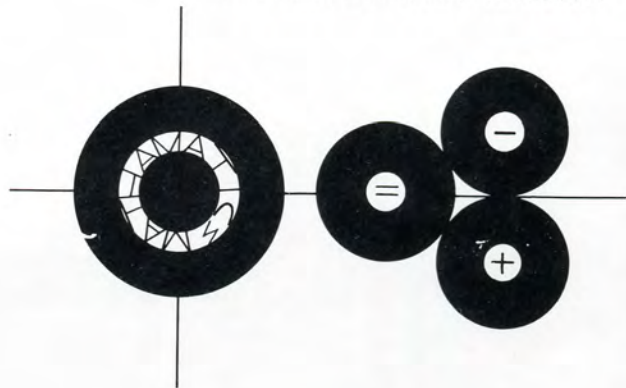

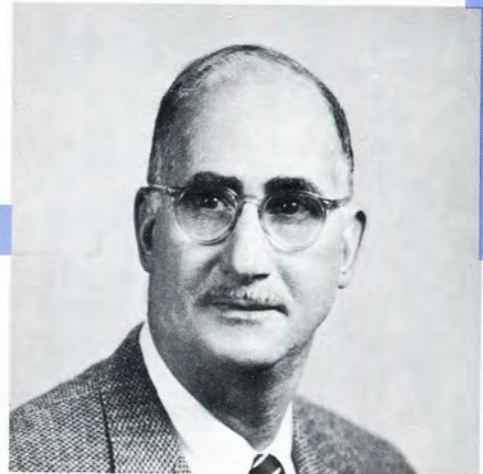

Mr. Henry W. Nace, Chairman,  
B.S., Franklin and Marshall College, 1929;  
M.A., Cornell University, 1938.

Mr. John R. Fawcett,  
B.S.M.E., Lawrence Institute.

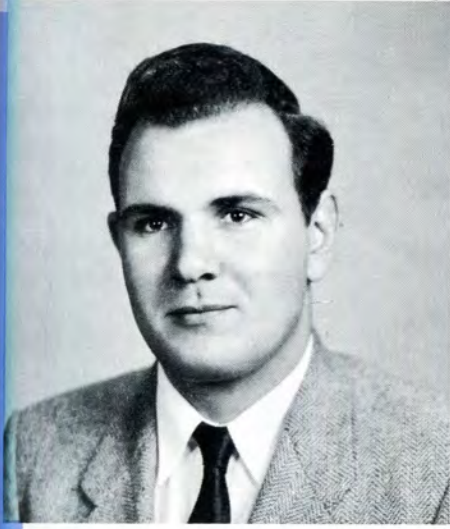

Mr. Alex Chehansky

Mr. Hubert Davis,  
M.A., University of Michigan.

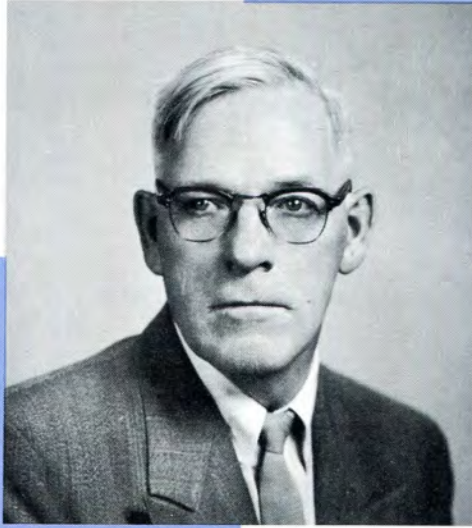

# Department

Mr. Gerhard K. Haase,  
B.S.M.E., Indiana  
Technical College.

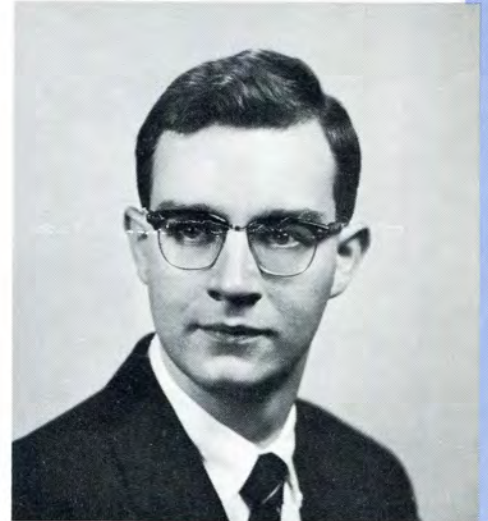

Mr. Edmund Jositas,  
B.A., Michigan State Normal,  
1940.

Mr. Allan Haslitt

Mr. Nubar Hachigian

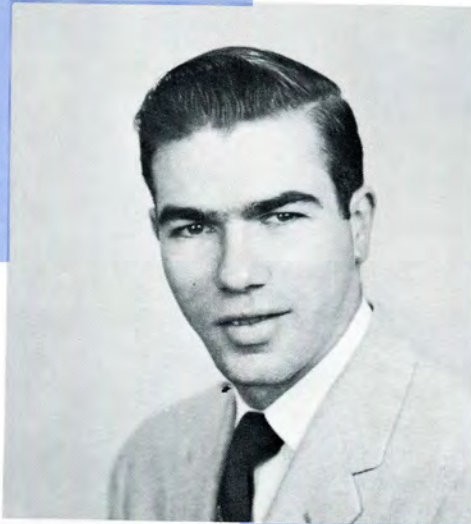

Mr. Jerry Lindsay,  
B.S., Lawrence Institute;  
M.A.E., Chrysler Institute

Mr. Wallace Pietila,  
B.S., Marquette  
University, 1948;  
M.Ed., Wayne State  
University, 1956.

Mrs. Beatrix Vogel,  
M.S., Purdue.

Mr. Roy W. Schenkel,  
B.S.E.E., Lawrence  
Institute, 1951.

Mr. Philip Mohan,  
M.S., University of Detroit.

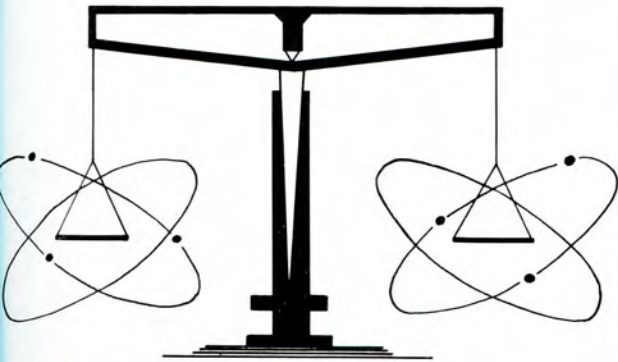

Mr. James S. Svenson,  
B.S., Lawrence Institute.

Dr. G. P. Brewington, Chairman,  
Ph.B., University of Denver, 1925;  
M.S., University of Michigan;  
Ph.,D., University of Michigan, 1931.  
Deceased January 2, 1958.

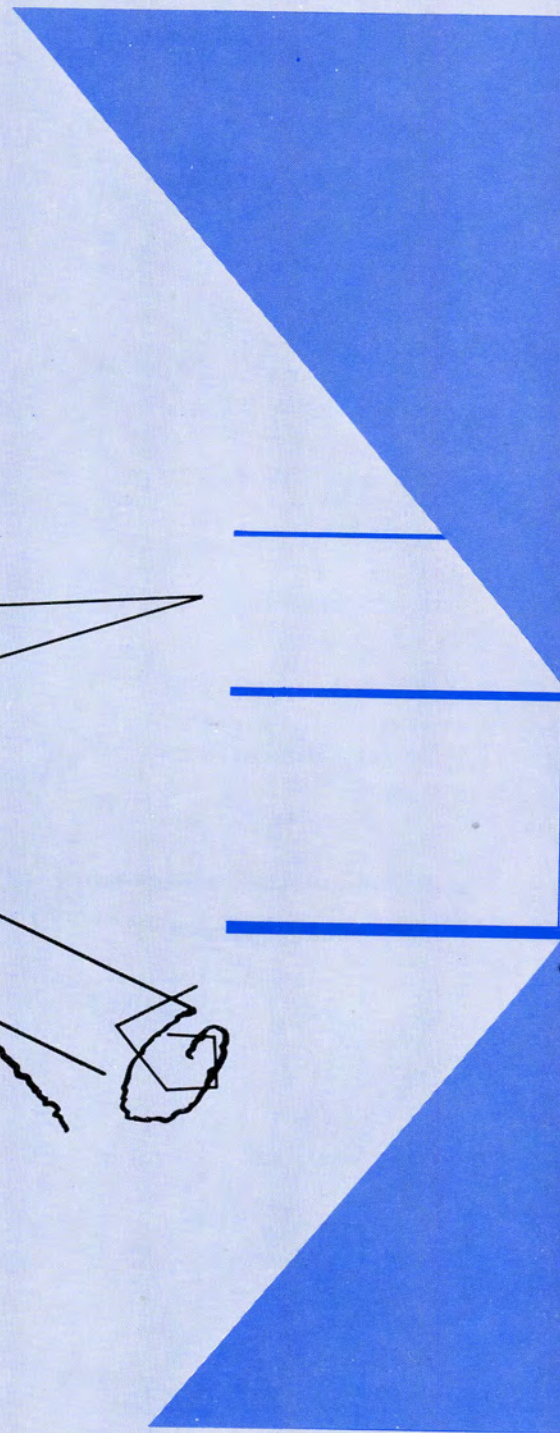

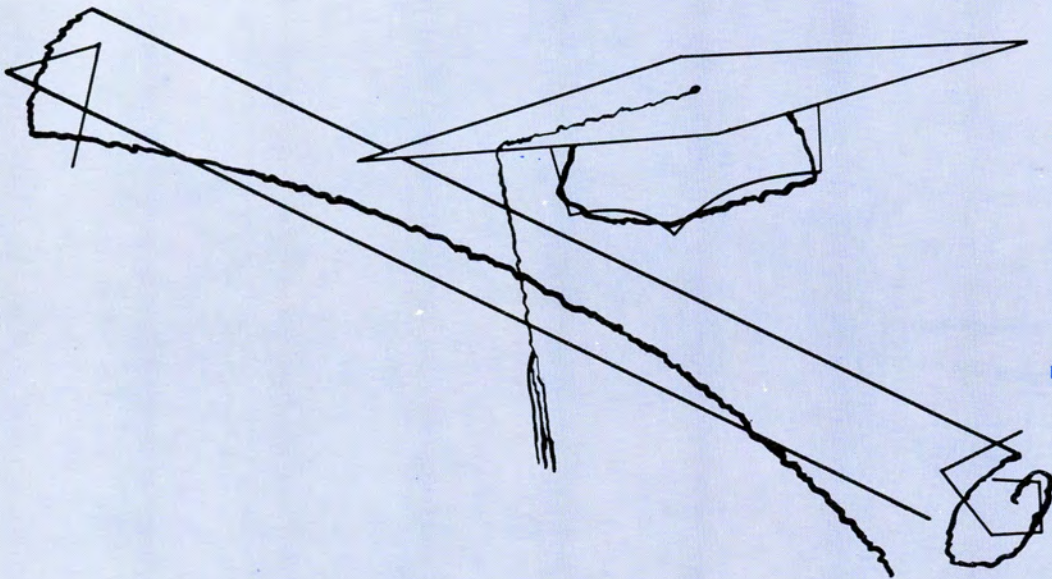

Mr. John Macropol,  
B.S., University of  
California, 1954;  
M.S., Michigan State  
University, 1955.

Mr. Richard Watson,  
B.S., Michigan College of Mining & Technology

# CANDIDATES FOR DEGREES

# SENIORS

Lawrence Institute of Technology has from the State of Michigan a charter which gives the right to confer, upon completion of the required subjects, a Bachelor of Science Degree in Industrial Management or in one of the following fields of Engineering: Architectural, Civil, Industrial, Electrical, and Mechanical.

The demand for technically trained people has been growing for many years. Our Technical Institute graduates have had the specialized training to meet the demand for these technical positions. Graduates receive an Associate Engineering diploma.

Mr. Earl W. Pellerin, Chairman,  
B.S.A.E., University of Michigan.

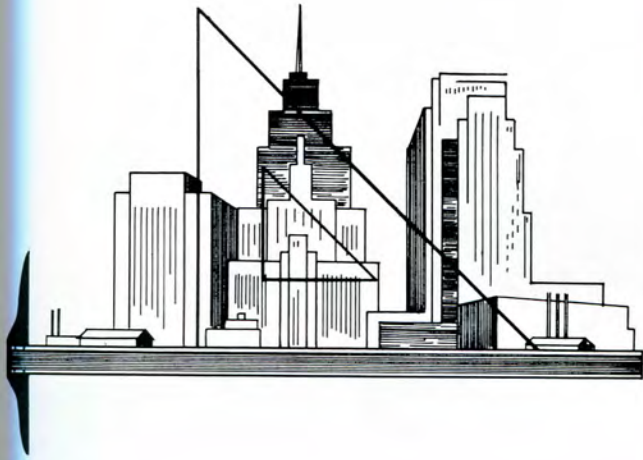

Miss Doris Smith,  
B.D., University of Michigan, 1947;  
M.S.D., University of Michigan, 1954.

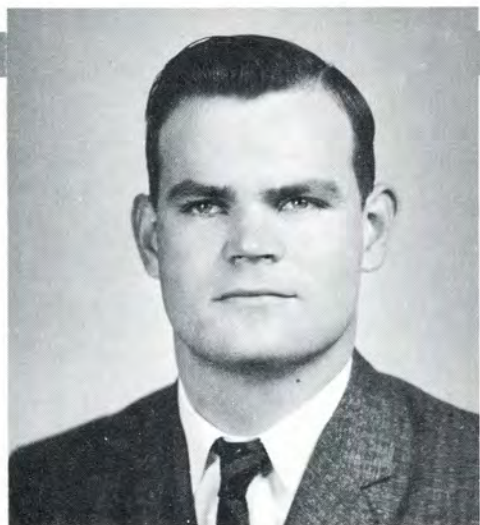

Mr. Maxwell E. Wright,  
Registered Architect, State of Michigan.

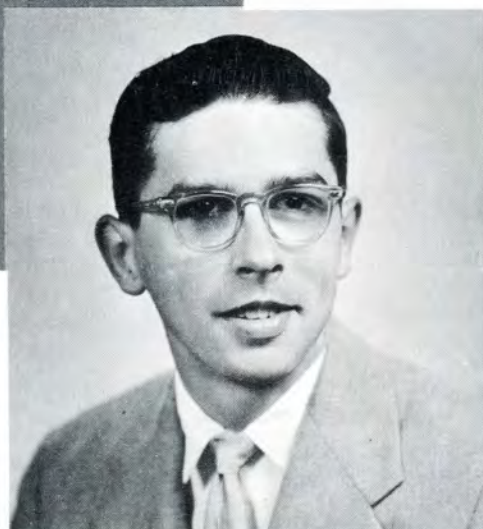

Mr. George B. Zonars,  
M. Arch., Cranbrook Academy of Art.

# **CLASSES AND ACTIVITIES...**

College life cannot only teach academic subjects, but it must also give the student a chance to express himself in other ways. The students at Lawrence Institute of Technology have this chance with the various clubs and activities.

## Seniors Class Officers

Standing, left to right: M. Hoffman, Vice-President; J. Walther, Treasurer.  
Seated, left to right: L. Braisted, Secretary; R. Rowe, President.

## DAY SCHOOL

Standing: J. Jensen, Treasurer.  
Seated, left to right: G. Peck, Vice-President; L. Lambert, President.

## NIGHT SCHOOL

Text, Discussion, and Application.

Seniors cramming as graduation nears.

## Junior Class Officers

Standing, left to right: R. Morales, Secretary; A. Fiegehen, Treasurer.  
Sitting, left to right: G. Rea, President; D. Gasser, Vice-President.

## DAY SCHOOL

Left to right: H. Herbison, Treasurer; S. Dukes, President.

## NIGHT SCHOOL

In the various laboratories, juniors are supervised in the applications of theory to practice.

The J-PROM exemplifies the extra-curricular activities participated in by the Junior class.

**J-PROM COMMITTEE**

Seated, left to right: A. Fiegehen, R. Morales.  
 Standing, left to right: G. Rae, D. Gasser.

## Sophomore Class Officers

Standing: J. Boeberitz, Vice-President.  
Seated, left to right: R. Rose, Treasurer; R. Chandler, President.

**DAY SCHOOL**

Standing, left to right: M. Murphy, Treasurer.  
Seated, left to right: L. Malinowski, President; W. Heinz, Vice-President.

## NIGHT SCHOOL

**FROSH FLING COMMITTEE**

Eugene Perlman, Ray Rose, James Boeberitz, Rick Chandler.

The Frosh Fling, presented for the incoming freshmen is the first social event of the year.

Data obtained in lecture classes are applied during the laboratory periods.

Data obtained in lecture classes are applied during the laboratory periods.

## Freshmen Class Officers

Standing, left to right: B. Kuzniski, Recording Secretary; S. Stankiewics, Treasurer; R. Carter, Corresponding Secretary. Sitting, left to right: G. Lambas, Vice-President; R. Gossmer, President.

## DAY SCHOOL

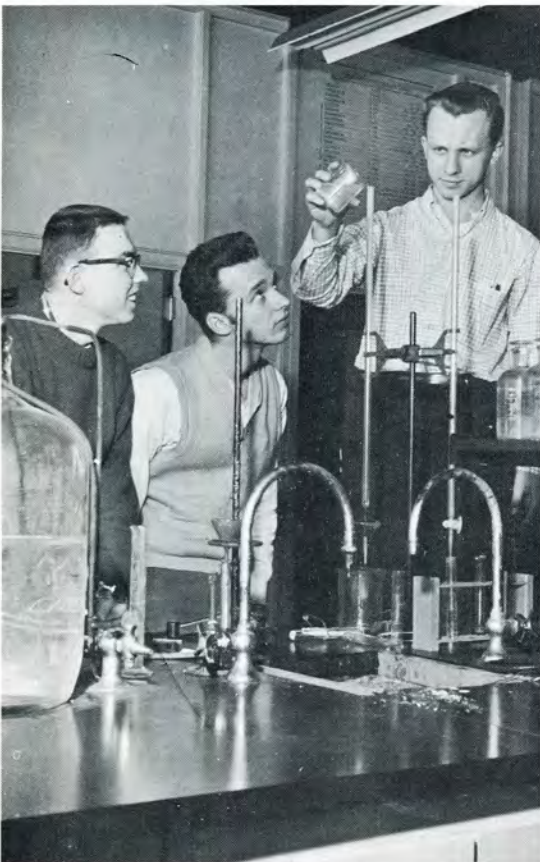

Left to right: G. Thomas, Vice-President; H. White, President.

## NIGHT SCHOOL

Freshmen laboratories teach fundamental engineering procedure.

Hell Week acquaints the freshmen to the traditions of the school and the ideals of college.

## Student Council

Seated, left to right: Garry Klees, Vice-President; Nick DeMarco, President; Professor Takken, Faculty Representative; Dick Stanco, Recording Secretary.  
Standing, left to right: Tom O'Toole, Treasurer; Harry Gibson, Corresponding Secretary.

Democracy is based on self government. This theme is carried out at Lawrence Tech through the actions of your Student Council. The Council consists of annually elected class officers and selected representatives of all recognized clubs and fraternities. The President and Vice-President of the Student Council are selected annually by the student body at a separate election. Administrative liaison is maintained by having the Council select a faculty member each year to act as an advisor. The bi-monthly meetings of the Council pro-

vide a forum of self government for all organizations, clubs, fraternities, and the student body in general. In addition, it organizes the annual school elections and controls the L-Book, the Tech News and all social activities of the school.

The fruits of this year's time and effort are exemplified in the newly formed LIT Blood Bank, the Polio vaccine program, the Children's Christmas Party and the organization of the Senior Graduation Dinner Dance.

# Blood

# Bank

Administration, faculty, students, husbands and wives . . . Everyone helped.

The Lawrence Tech Blood Bank became a reality because Administration, Faculty, and Students planned and worked together. It could never have been born if the need were not present and each individual had not realized his and her responsibility. The success of the Blood Bank will be a lasting monument to the sincerity and earnestness of all personnel at Lawrence Tech.

For years emergencies of the type requiring blood donors have been our constant companions. Members of the Student Council began work on the far reaching project during the summer of 1957. Immediately after the school year opened, a Board of Trustees was formed which consisted of the following members: Gerry Peck, Chairman; Nick DeMarco, Council President; James Hobson, Assistant to the President; Edward Jositas, Faculty Representative; Reed Abt, Alumni Representative. Adding to this endeavor in the Council itself John Lidkea, Don Clinton, and Jim Arnold formed with Gerry Peck the Blood Bank Committee.

It was from this nucleus that our major project of the year started. Enthusiasm was the keynote. The administration through Mr. Hobson, Dean Ryan, and Dr. Graeffe joined with the faculty and student leaders in what soon became a truly joint venture. Jim Arnold as

Tech News Editor gave the type of help and cooperation we did not believe possible. In short, the students and faculty members of Lawrence Tech became aware very quickly of the existence of a Blood Bank and what was expected of them.

On January 20th the first Bloodmobile set up shop in the Student Lounge from 4:30 to 10:30 p.m. The drive was a success with the unit handling the maximum number of volunteers. On March 3rd, the second Bloodmobile arrived to work from 9:00 a.m. to 3:00 p.m. This drive also was very successful. The day school men presented over 200 signed pledges in their request to the Council for this second drive.

We of the Student Council are proud of this organization and the work which made it possible. It has served both Lawrence Tech and society in general. The honest endeavor and joint enterprise which have personified this activity from the beginning have welded all departments and groups into one common aim. The school spirit, cooperation between administration and students, and sense of common belonging have never been stronger. In the years to come, remember you were a part of the beginning.

# Architectural Club

## In Memoriam

Andrew L. Palajac (1932-1957)

Each day brings a feeling of satisfaction for the work and help he gave in building the equipment and in keeping alive the spirit of the Architectural Club.

Our club is entering its ninth year as one of the three student branches of the Michigan chapter of the American Institute of Architects.

## Electronics Club

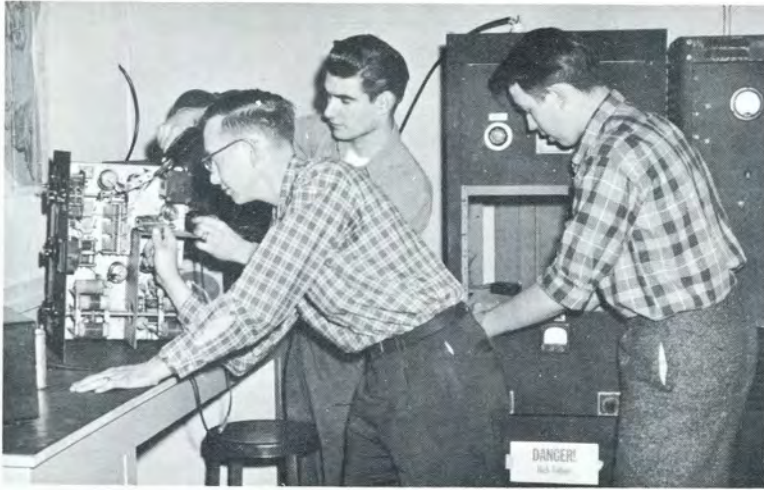

Standing, left to right: B. Hewson, Vice-President of Audio Reproduction Division; R. Kanehl, Vice-President of Amateur Radio Division. Seated, left to right: N. Tomboni, Secretary and Treasurer; J. Zabawski, President.

For those interested in the field of electronics, an excellent opportunity awaits you. THE LAWRENCE INSTITUTE OF TECHNOLOGY ELECTRONICS CLUB was formed during February 1957, to encourage interest in electronics; provide a common ground for all enthusiasts to meet and exchange information.

In the past year The Club has presented a prize winning Founder's Day Audio Show,

attended lectures, and toured television studios.

Those in the Amateur Radio section learn to send and receive code, do preliminary work for an operator's license, and operate a school amateur radio station. Audio Reproduction gives each member an opportunity to apply his knowledge in order to reproduce all sounds with stimulating quality.

After group discussion, the members go into the laboratory to practice amateur radio and audio reproduction.

# Mechanical Engineering Club

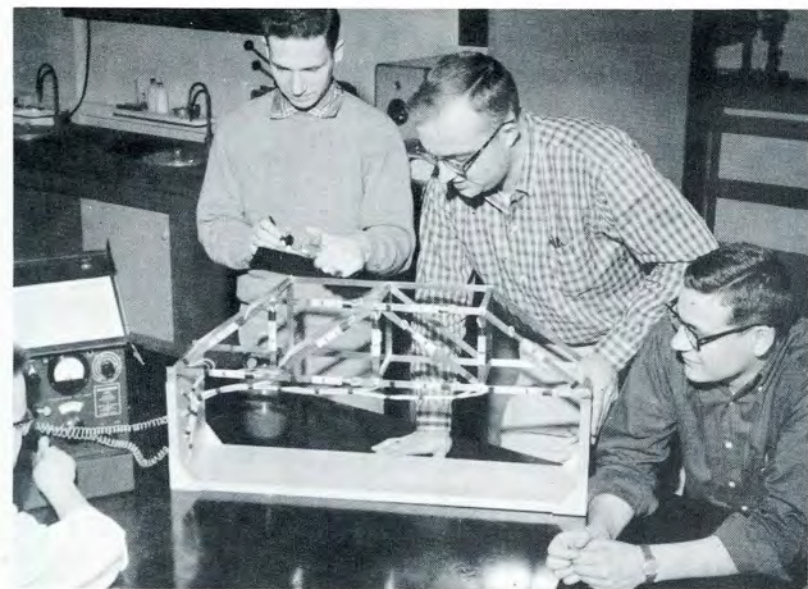

Standing, left to right: R. Gross, Vice-President; R. Payer, President. Seated, left to right: C. Edwards, Secretary; Mr. Levinson, Faculty Advisor; L. Hogan, President.

Since its nativity on November 4, 1955, the Mechanical Engineering Club has contributed considerably to the academic and social life of the seniors of Lawrence Institute. This club was founded with the belief that something constructive could be accomplished by the students in their spare time.

Under the able guidance of Professor Levinson this group has demonstrated the practical and analytical ability of Lawrence Tech students. Several fine examples of apparatus designed and constructed by club members include a gas furnace, flow table, model bridge, and others.

The most important accomplishment of this club has been the development of professional consciousness, social awareness, and the ability to work effectively with others.

The construction, testing and use of M.E. projects provides members many an interesting session.

# Society for Advancement of Management

Left to right: M. Phillips, Vice-President; E. Petrak, President; R. Vantine, Treasurer.

The first student chapter of the Society for the Advancement of Management in Michigan was organized in June of 1949 at Lawrence Institute of Technology by Mr. Lloyd C. Bagby, the faculty sponsor. Mr. Dowling, the faculty advisor, was instrumental in bringing the society to the campus.

Meetings are held at various times during day school to keep the members informed of plans and activities. Occasionally, outside speakers and panel discussion sessions are brought before the group.

By means of the publication — "ADVANCED MANAGEMENT," which is

distributed to all members, the latest developments in personnel and management methods, procedures, and problems as applied to the many industries throughout the country are explained in detail by specialists in those fields.

Field trips are conducted to various business establishments to familiarize the students with techniques, layouts, and problems as they now exist. During this school year, the group has been to the George N. Nankervis Company, Vickers Incorporated, Kowalski Sausage Company, and Chrysler Plymouth Engine Plant.

Shown are some of the field trips for S.A.M. members.

## L.I.T. Ski Club

Standing, left to right: S. Weiner, President; B. Morales, Treasurer.  
Seated, left to right: B. Zuraw, Vice-President; R. Carter, Secretary.

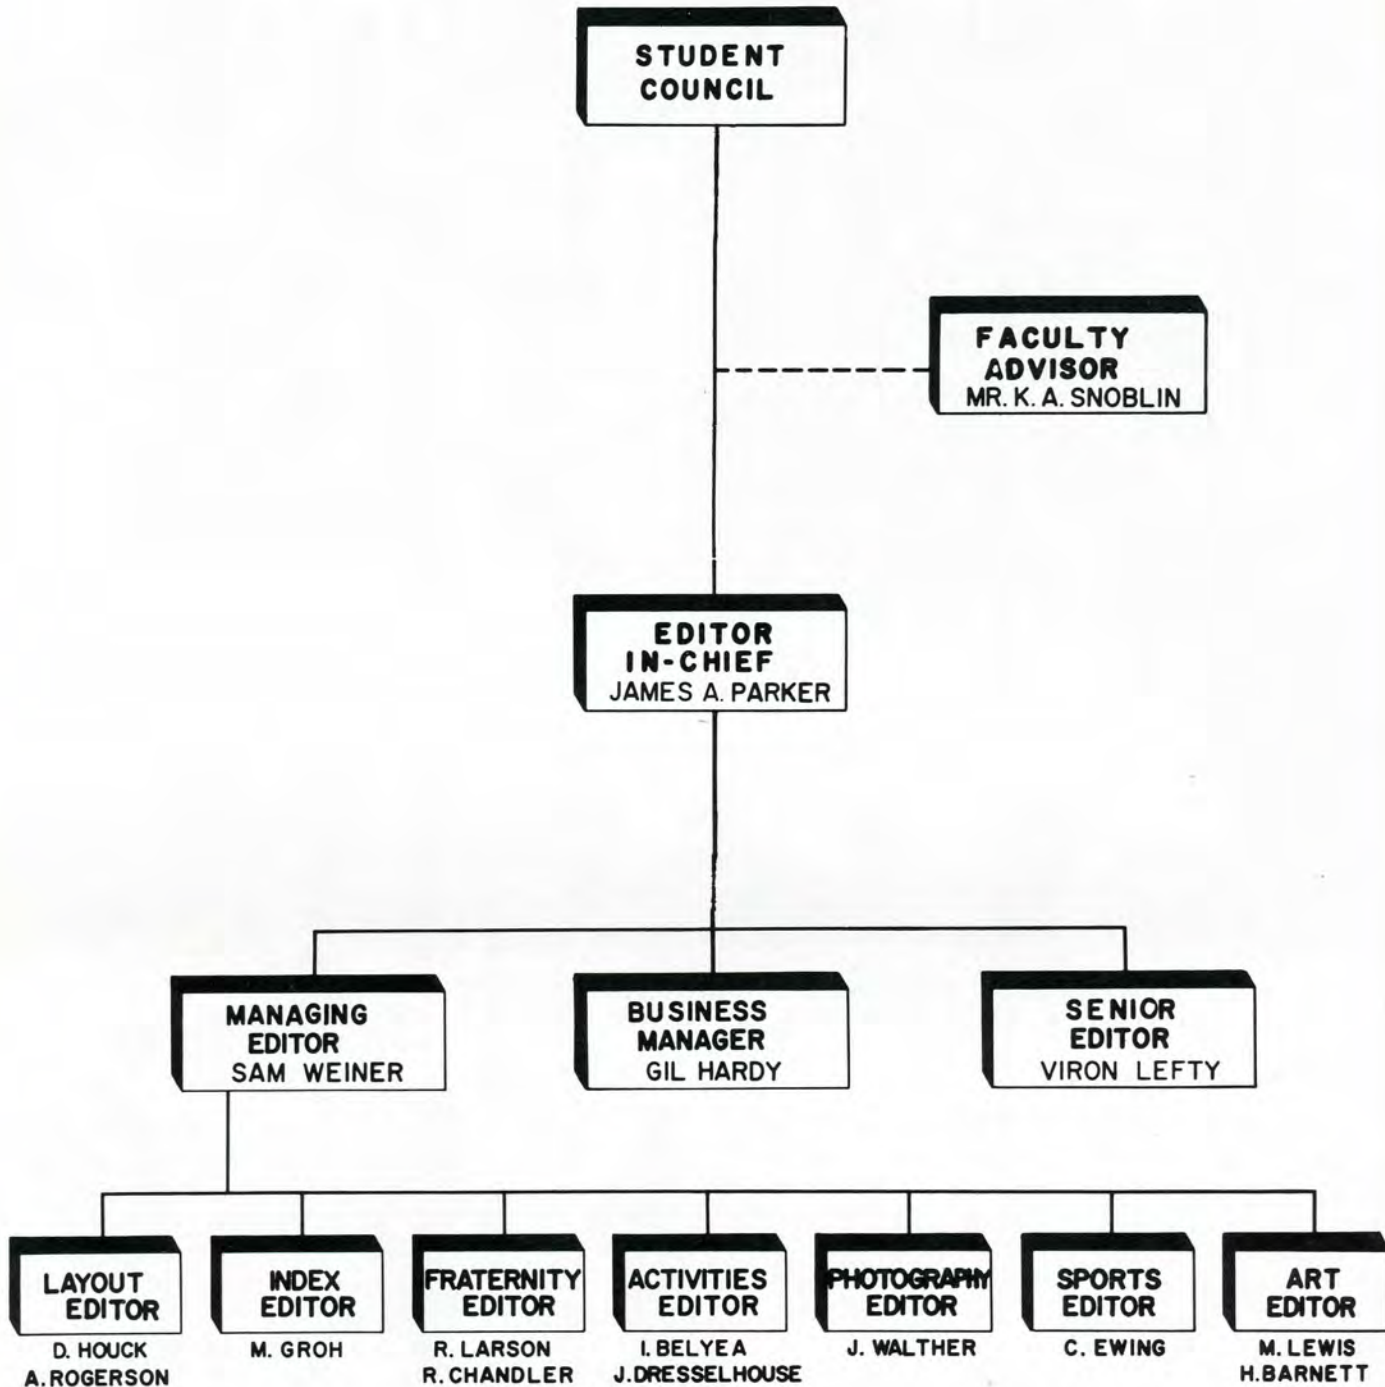

The Ski Club has been active for the past year, and has grown considerably in this time.

The purpose of the Ski Club is to introduce this winter sport to the students and faculty of Lawrence Institute of Technology.

One of the trips enjoyed by SKI CLUB members.

# L-BOOK ORGANIZATION CHART

**KEY:**

- DENOTES LINE AUTHORITY
- - - - - DENOTES STAFF AUTHORITY

Standing, left to right: Mr. K. Snoblin, Faculty advisor; C. Ewing, Sports Editor; M. Groh, Index Editor; A. Rogerson; D. Houck; J. Walther, Photographic Editor.  
Seated, left to right: R. Chandler, Fraternity Editor; J. Parker, Editor-in-Chief; S. Weiner, Managing Editor; C. Taylor; G. Hardy, Business Manager.

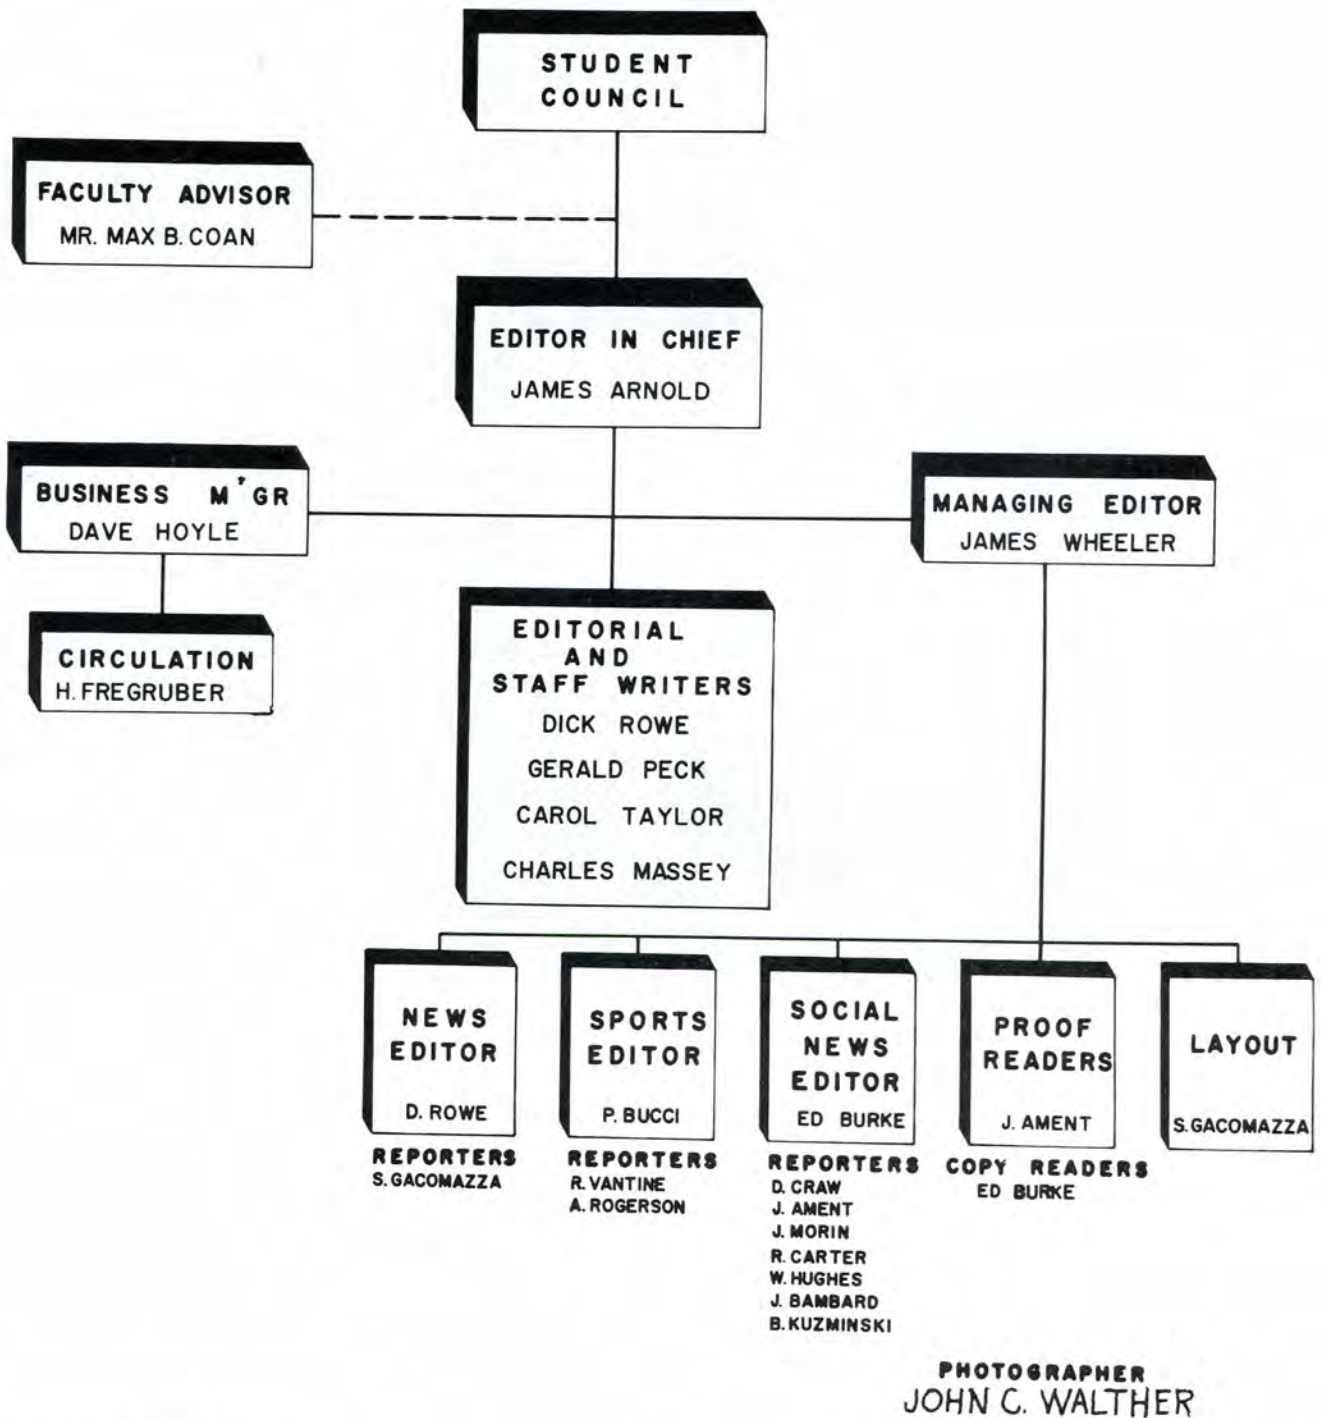

Viron Lefty, above left, Gerry Dresselhouse and Ivan Belyea, above right, Ray Larson and Rick Chandler, left, busily engaged on their respective sections of the L-Book. Layouts and copy are prepared and proof read, then submitted to the editor-in-chief.

Jim Parker, Editor-in-Chief, checking the progress chart against collected copy. After the copy is turned in the editor checks indexing and content before sending the section to the publisher.

# TECH NEWS ORGANIZATION CHART

**KEY:**  
 \_\_\_\_\_ DENOTES LINE AUTHORITY  
 - - - - - DENOTES STAFF AUTHORITY

**PHOTOGRAPHER**  
 JOHN C. WALTHER

Standing, left to right: H. Freigruber, Circulation Manager; J. Moron, Reporter; W. Hughes, Reporter; D. Rowe, News Editor; R. Vantine, Reporter; A. Rogerson, Reporter; D. Craw, Reporter; G. Ament, Reporter; J. Walther, Photographer; and P. Bucci, Sports Editor.

Seated, left to right: Mr. M. Coan, Faculty Advisor; J. Wheeler, Managing Editor; D. Hoyle, Business Manager; R. Carter, Reporter; B. Kuzminski, Reporter; S. Giacomazza, Reporter; E. Burke, Social Editor; and J. Arnold, Editor.

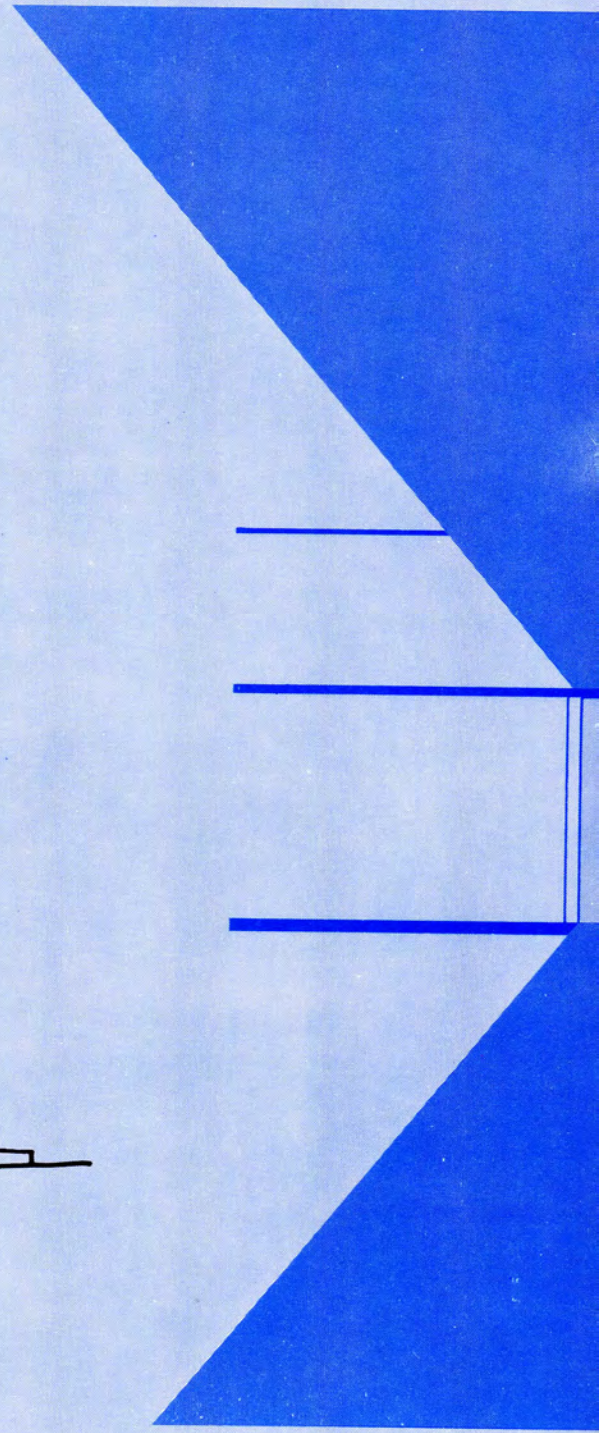

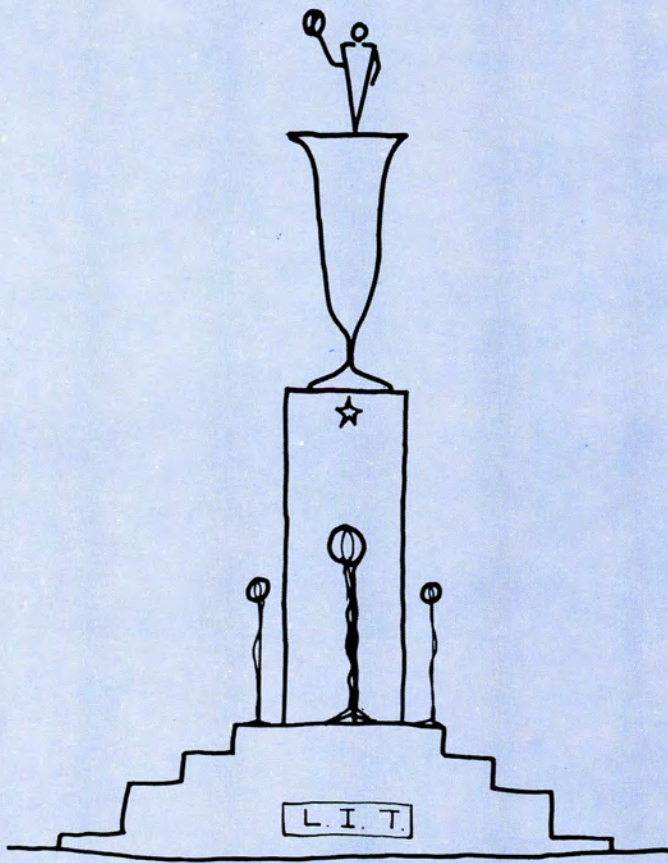

Seated, left to right: A. Rogerson, reporter; E. Burke, Editor; D. Hoyle, Business Manager; S. Giacomazza, layout; J. Wheeler, Managing Editor; J. Arnold, Editor-in-Chief, seriously discussing the problems that confront the Tech News. Problems are ironed out in this manner and suggestions are then taken into consideration for the next issue of the paper. Each editor collects from the reporters the articles for his section and proof reads them before turning them over to the editor-in-chief.

Jim Arnold, Editor-in-Chief, and Jim Wheeler, Managing Editor, layout the collected material in the manner in which it is to be printed. This copy is given to the publisher and a copy print is made.

Checking the copy print, or first print off of the press, is a difficult job for Jim Arnold and Jim Wheeler. Many corrections are made at this stage of the issue. The printer then receives the 'OK' to set up for production.

# **SPORTS...**

It would seem that no other college activities bring out the school spirit and enthusiasm as much as sports. The keen spirit of amateur competition transplants the spectator into the uniformed figures on the playing area and so inspired the team often tastes the sweet fruit of victory.

# FRATERNITIES...

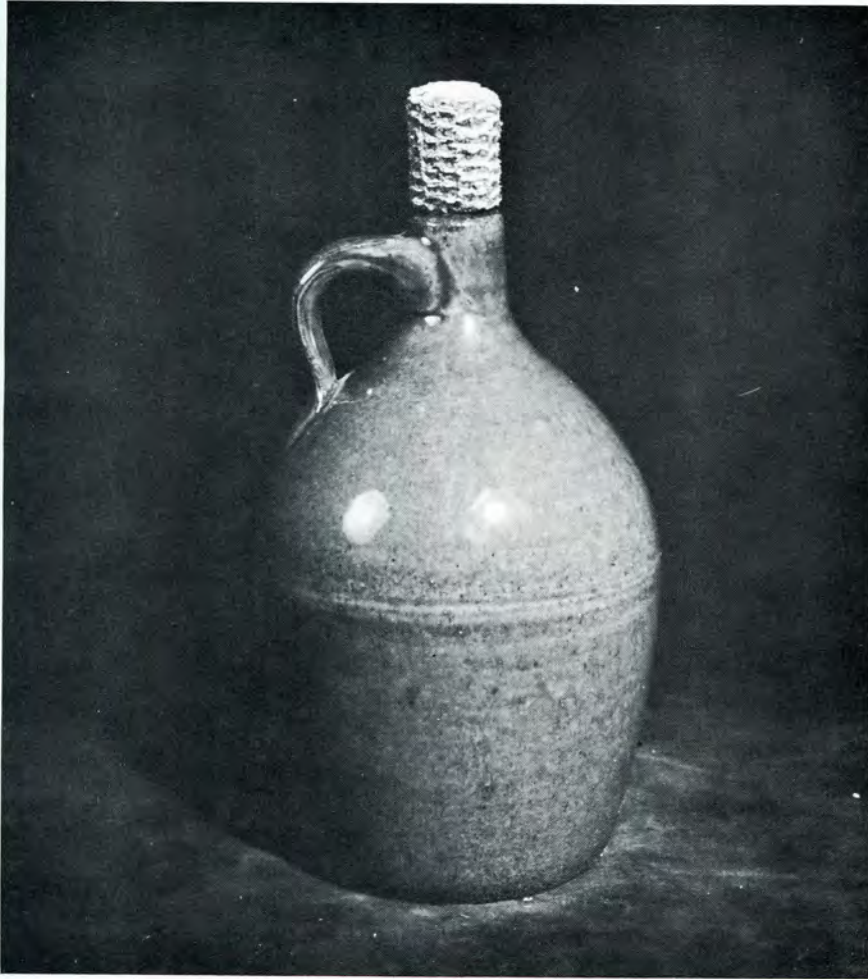

Fraternity — what meaning does this word impart to an individual not knowing about one. He might look into Webster and find that Fraternity means, “state of being brothers; a body of men associated for common interests”.

“Common interest,” being the general well-being of the collége itself. The fraternities obtain this objective by instilling and practicing the principles of brotherhood, comradeship, and humility by providing group discussions and by educating the men in the social graces.

## Inter-Fraternity Council

Left to right: J. Williams, Alpha Gamma Upsilon; W. Dengler, Kappa Sigma Kappa;  
V. Lefty, Phi Kappa Upsilon; J. Arnold, Kappa Phi Sigma; J. Schedlebower, Rho  
Delta Phi.

The Inter-Fraternity Council (I.F.C.) is composed of one representative from each fraternity on campus. Each year the chairmanship of the I.F.C. is rotated and this year the position is held by Viron Lefty of Phi Kappa Upsilon.

The I.F.C. was organized to investigate the scholastic position held by each prospective pledge of the fraternities, to regulate the opening dates of the rush seasons, to correlate fraternities social calendars, and to coordinate inter-fraternity functions.

This year the I.F.C. inaugurated two new inter-fraternity functions—the semi-annual Pledge Jug Hunt and the annual Prospective Pledge Mixer. The Jug Hunt is an event in which the pledges of the various fraternities try to locate a jug that has been hidden on campus. The fraternity whose pledge finds the jug, keeps it until the next Pledge Jug Hunt. The Prospective Mixer provides an opportunity for the lower classmen to become acquainted with fraternities on campus. The fraternities have their representatives at this event to answer questions and give information about their respective fraternity.

Through the I.F.C. the common goal of the fraternities, “The betterment of the high ideals of Lawrence Tech” may be procured.

The annual I.F.C. Prospective Pledge Mixer was well attended by members and guests.

## Lambda Iota Tau

The Lambda Iota Tau Key has become the most coveted of all keys at L.I.T.

It is presented each year to outstanding men of L.I.T. for their high scholastic ability coupled with their work in extra-curricular activities.

The Lambda Iota Tau Honor Award was instituted by Dean Russell Lawrence in 1934, only two years after he founded Lawrence Institute of Technology.

Left to right: N. DeMarco, W. Zachary, R. Rowe.

# Alpha Gamma Upsilon

SAM WEINER  
President

RAY LARSEN  
Vice President

GUS MILLER  
Treasurer

JERRY DRESSELHOUSE  
Secretary

1958 marks the 25th year of Epsilon Chapter of Alpha Gamma Upsilon at L.I.T. Since its founding, Epsilon has been striving to contribute to the welfare and growth of L.I.T. It has been well represented on the Student Council and in other activities about school.

Since receiving its National Charter in 1922 Alpha Gamma Upsilon has gained prominence throughout the Midwest and is expanding into the Eastern States.

This past year has proven itself enjoyable and successful for Epsilon. As a leader in school activities Epsilon can look forward to an age of progress and prosperity.

Alpha Gamma Upsilon sponsors the annual Winter Waltz and Founders Day dance.

This year Alpha Gamma Upsilon had the honor of being host for the celebration of the Twenty-fifth Anniversary of Founders Day.

# Kappa Phi Sigma

JAMES ARNOLD  
President

PAUL STITES  
Vice President

AL ROCK  
Treasurer

HOWARD COLE  
Secretary

Seated, left to right: B. Surbrook, C. Knight, D. Hoyle, A. Rock, J. Arnold, P. Stites, H. Cole, D. Craw.

Standing, left to right: H. Haupt, J. Hoffmeyer, D. Petrak, S. Kotowski, R. Gross, B. Wilson, R. Vantine, B. Bagley, H. Freigruber, E. Johnson.

Since its organization in 1951 Kappa Phi Sigma, with its belief in the training of leaders, has become synonymous with organization and leadership on the Lawrence Tech Campus.

During Pledge seasons Kappa Phi Sigma has striven to instill in each pledge the powers of leadership and active participation in campus activities. This effort has not gone without results. Members of Kappa Phi Sigma have appeared regularly on the Dean's Honor Roll and the rosters of organizations such as the Student Council and the Tech News.

The past year has been a memorable one for the Brothers of Kappa Phi Sigma with such activities as the New Year's Eve Party, Pledge Mixers, Treasure Hunts, The Valentine Party, April Fool's Day Party, and two Dinner Dances.

These activities have helped Kappa Phi Sigma men balance their social life and scholarship.

The summer activities of Kappa Phi Sigma continued with great enthusiasm as the members enjoyed the joys of the Second Annual Convention, the hectic competition of the Inter-fraternity Baseball League, and an extremely active week-end at Jose Lake.

# Kappa Sigma Kappa

RICHARD BARTO  
President

DICK STANCO  
Vice President

JAY MacDONALD  
Treasurer

EDWARD CASCARDO  
Secretary

The Michigan Beta Chapter of Kappa Sigma Kappa Fraternity was founded at Lawrence Institute of Technology in 1948 by twelve men seeking to develop a spirit of brotherhood and to promote interest in social and scholastic activities.

Achievement of this goal was obtained by sundry social activities such as the food concession at the Michigan State Fair and the Annual Millionnaires' Party, which are the prime fund-raising activities. The money earned from these various events were put into the Kappa Sigma Kappa Building Fund which, some day, will be used to build a fraternity house. Each year a charitable endeavor is also carried out.

Social events for the year included the annual Presentation Banquet at Bill's Northern, weiner roasts, picnics, stag parties, softball games, bowling participation and holiday parties.

The spirit of brotherhood and constructive thinking is a valuable integration of Kappa Sigma Kappa.

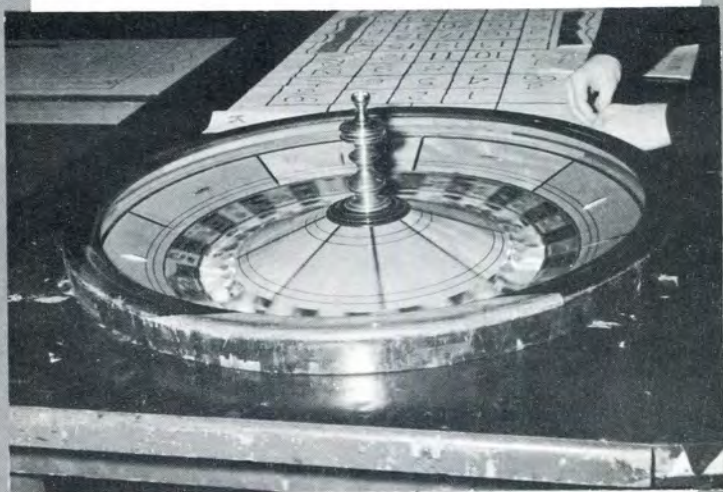

Seated, left to right: W. Dengler, J. MacDonald, W. Hunley, R. Barto, R. Stanco, E. Cascardo, J. Kwasny.  
Standing, left to right: F. Rowland, R. Klein, W. Peterlin, F. Karisinski, L. Waters, G. Kinsel, W. Tracy, W. Szymanski, G. Scott, L. Malenowski.

Row 3, left to right: E. O'Quin, E. Howard, C. Valka,  
W. Brown, C. Carney, W. Reppen, W. Terreault, V. Pack-  
wood.

Sigma Kappa Psi was founded in November of 1951 by a group of students interested in establishing a fraternity for the Technical Institute.

Since then the fraternity has been striving to develop a spirit of brotherhood, create loyalty among the membership, establish loyalty to Lawrence Tech, and encourage social forensic, athletic and especially scholastic activities.

In its comparatively young life, Sigma Kappa Psi Fraternity has kept pace with the changing scene and progress of Lawrence Tech.

The Sigma Kappa Psi social highlight of the year is the annual Banquet. Members, past and present, look forward to this function for renewing old and making new acquaintances.

### The Semi-Annual Pledge Mixer

These mixers serve two purposes: to introduce pledges to the membership and to initiate them into the fraternity.

# Rho Delta Phi

JERRY SCHEDULEBOWER  
Secretary

DICK KINSEY  
Treasurer

BILL SCHINZING  
President

DICK COPE  
Vice President

“To develop a high standard of morals and character, encourage scholarship, and develop honor and loyalty among the students of the Alma Mater” is the purpose of Rho Delta Phi fraternity.

In early 1938 sixteen men realized the need for a new social fraternity in L.I.T. With the help of Dean Hendrickson they banded together to form the Alpha Chapter of Rho Delta Phi in November 1938. Many hours were spent planning and organizing the constitution, the pledge manual, and the pledge season. March 5, 1939, marked the official inception of Rho Delta Phi as fourteen members received their pins and certificates.

Throughout the year there have been many successful social functions. both stag and drag.

Seated, left to right: T. Butler, T. Cameron, D. Kinsey, B. Schinzing, J. Schedlebower, T. Zago, C. Smith.  
Standing, left to right: C. Jacobi, J. Martin, J. Reihl, D. Simmons, J. Neimi, D. Whittbrodt.

From chess to softball the younger and the "elder statesmen" all enjoy themselves at fraternity functions.

Members enjoyed themselves at the semi-annual pledge mixer held at Professor Hancock's home. Everyone had a good time at the semi-annual Dinner Dance held at Tassie's Tavern.

DENNIS DE CLERK

LYLE BURPEE  
President

JAKE PETRUNAK  
Vice President

SAM DUKES  
Secretary

In 1932, the late brother Russel E. Lawrence, with the help of others like him, decided to encourage mutual trust and friendship among fellow men. He accomplished this by the organization of the Phi Kappa Upsilon Fraternity, which is represented by two chapters, Delta Chapter in day school, and Alpha Chapter in night school.

Although the promotion of faith, honesty, and love of our fellow man is the most important function of a fraternity, many other accomplishments have been made, the most recent being the wholehearted participation in the Blood Bank Drive. A cottage was rented for the entire summer by and for the use of the members. A food concession, owned and operated by PKU was again seen at the Michigan State Fair. As in previous years, representation on the Student Council and many other clubs on campus tend to keep the members active.

FLOYD WHITE

## Editor's Note

The planning of the 1958 L-Book was not all fun or play. Many hours of concentrated effort was put forth by everyone on the staff. Everyone listed above and many more, too numerous to mention, contributed an enormous amount to the layout of your annual. A special amount of appreciation is extended to Mr. Ken Snoblin, Faculty Advisor, and Mr. Al Weatherly, Publisher, for their direction and guidance. I sincerely hope that the design, content and use of color is pleasing and will give you, the graduating seniors, many hours of pleasure in the future.

CONGRATULATIONS

## WAY TO BETTER LIVING

Learning provides a key to the spiritual and material riches of the world. Through learning, science and industry have combined to bring new convenience, new benefits and a new measure of leisure into our lives.

In this evolution electricity has played a leading part.

In the years to come you will live still better electrically for greater things are in store. But it will take ever higher standards of learning to win them.

Good luck to you in helping to make the dreams of today the realities of tomorrow.

## Have You An Assembly Problem?

**LET OUR  
SPECIALISTS  
HELP YOU**

Are you still using slow uphill hand methods that keep your assembly department in low gear and labor costs in high? Discard them and get on to the rapid straight-away of speedy, inexpensive production offered by D.P.S. power-driven machines.

### **DETROIT POWER SCREWDRIVERS**

Drive screws as fast as one a second—all types of screws—no marring of heads or stripping threads—all screws driven to uniform tension—Hopper-fed—SCREWS ALWAYS IN SIGHT OF OPERATOR—3 models, one to fit your requirements.

### **SPECIAL ASSEMBLING MACHINES**

For light assembly operations using Hopper Units to feed component parts.

### **DETROIT POWER NUT DRIVER**

A revolutionary new machine that drives nuts with amazing speed, either semi-automatically, or it can be adapted to full automatic operation entirely eliminating the manual handling of nuts. Capacity: nuts,  $\frac{3}{16}$ " min. to  $\frac{1}{4}$ " max. across flats.

### **THE HOPPER UNIT**

Motorized—Highly Adaptable—A selective feeding device whereby production parts are selected, oriented and fed in a given position for primary and secondary operations.

## STUDENTS

Many members of your alumni, as outstanding American citizens, have set high standards in a profession which has done so much to make this country of ours a world leader.

We need more and more engineers like that who can think straight and act vigorously to keep American the land of opportunity.

You gentlemen have the equipment for that leadership. We are depending on YOU.

## *After Graduation . . . What?*

Many graduate engineers have already found that their education background has helped them advance at Pioneer. These men have learned that the engineering industry offers challenging, stimulating, satisfying work...worth-while use of engineering knowledge...and security in times of economic unbalance.

Over twenty-five years of imaginative engineering and competent, aggressive management have made Pioneer Engineering a pioneer in many competitive markets. This position is due to technical improvements in production and manufacturing and by consistently cutting for industry both cost and time of re-tooling, improving of product design and devising of new techniques.

# Executive Jobs For Engineers

Bell Telephone companies pick many of their top executives from among their engineers. More than half the Presidents of all Bell companies have engineering degrees—as does the President of the American Telephone and Telegraph Company.

What kind of engineering interests you most as a life work? Michigan Bell has unusual opportunities for engineering abilities of every type . . . well-paid, satisfying, permanent jobs in the rapidly-growing field of communications.

Find out today about your Future Unlimited from your Placement Office, or call WOODWARD 3-9900, Ext. 541.

## ENGINEER YOUR FUTURE AT BENDIX

Your future success as an engineer depends on a variety of circumstances, some of which you may influence, others which you cannot. Fortunately, the odds are heavily in favor of those who plan intelligently and well. That is why we urge you to give your future the same painstaking study and thought you would accord any difficult engineering problem. We believe you will make a wise decision if you plan your engineering future with Bendix. And here is why:

Bendix is one of the nation's largest and most diversified engineering-research-manufacturing firms. The creative ability and ambition of Bendix engineers have contributed

importantly to this growth.

Then, too, Bendix is decentralized—with twenty-four semi-autonomous divisions located throughout the country. Nine of these have been created or acquired since 1950. They offer a broad range of opportunities for personal recognition and rapid advancement in a wide variety of interesting technical fields.

Opportunities await the young engineer qualified in such diverse fields as electronics, electromechanics, ultrasonics, systems, computers, automation and controls, radar, nucleonics, combustion, air navigation, hydraulics, instrumentation, propulsion, metallurgy, communications, carbu-

retion, solid state physics, aerophysics and structures. Working with the country's leading engineers, you will have chances aplenty to develop your talents to the limits of your capability.

Make it a "must" to meet the Bendix representatives when they visit your campus, or write today for further information concerning Bendix' progressive personnel policies, broad educational assistance program, and other personal benefits. See your college placement director or address your inquiry to Dr. Gerald A. Rosselot, Director of University and Scientific Relations, Bendix Aviation Corporation, 1106 Fisher Building, Detroit 2, Michigan.

## Work with Seasoned Engineers

Long prides itself on its engineering personnel. Their research, development and manufacturing know-how have enabled us to lead the field with new automotive and air conditioning products.

We're always looking for talented young engineers to train with our skilled staff. The future in heat exchangers, drive-line units, clutches and torque converters offers great opportunity. If you want to get in on it, if you'd like to use extensive engineering facilities—come in and talk it over with us.
