BLINDING

PHOTOCOPY

CHAOS!!

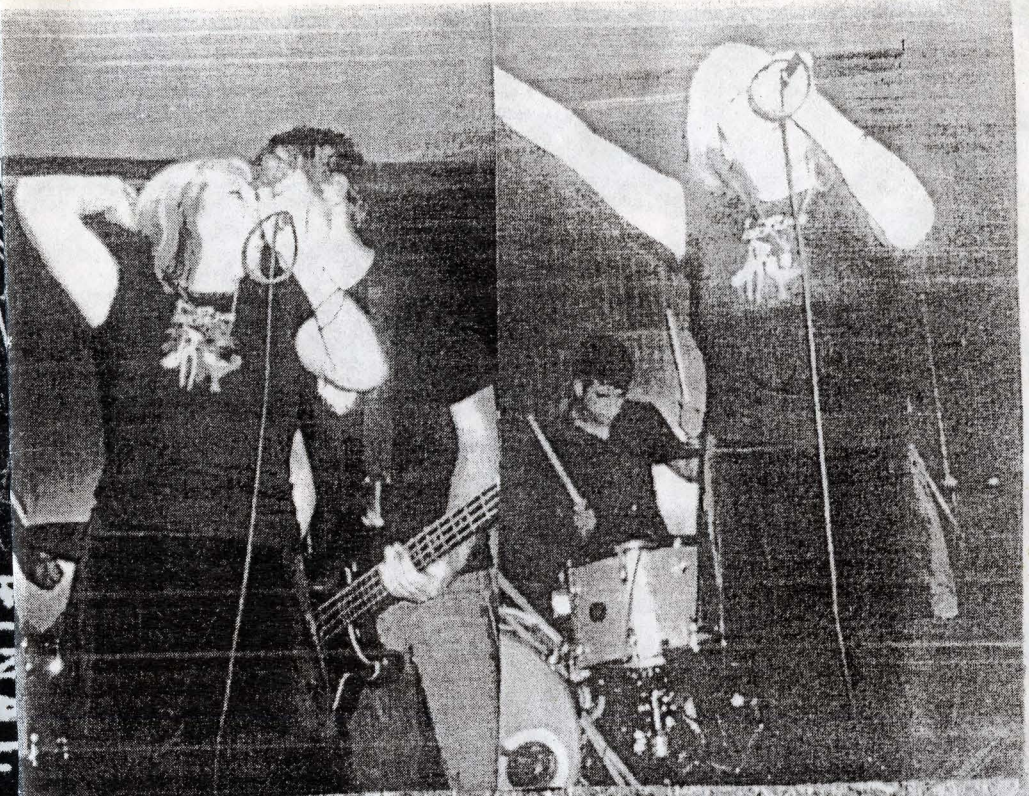

Hey, welcome to another issue of TREMOLO, the Philly punk scene's only photazine. The pictures are from just a few of the rad shows that went down over the summer in this gritty city.

I took all the pictures (Fujifilm) and then I photocopied them at the library. Then I glued them on to pieces of paper. More people should do zines. It's easy.

The stencil on the last page was done by Brendan Gavin. I admit that I was just looking for an excuse to use it. It's pretty damn awesome.

TREMOLO_ZINE@YAHOO.COM - Get in touch for any reason. I still have a few copies of #1 left if anyone's interested.

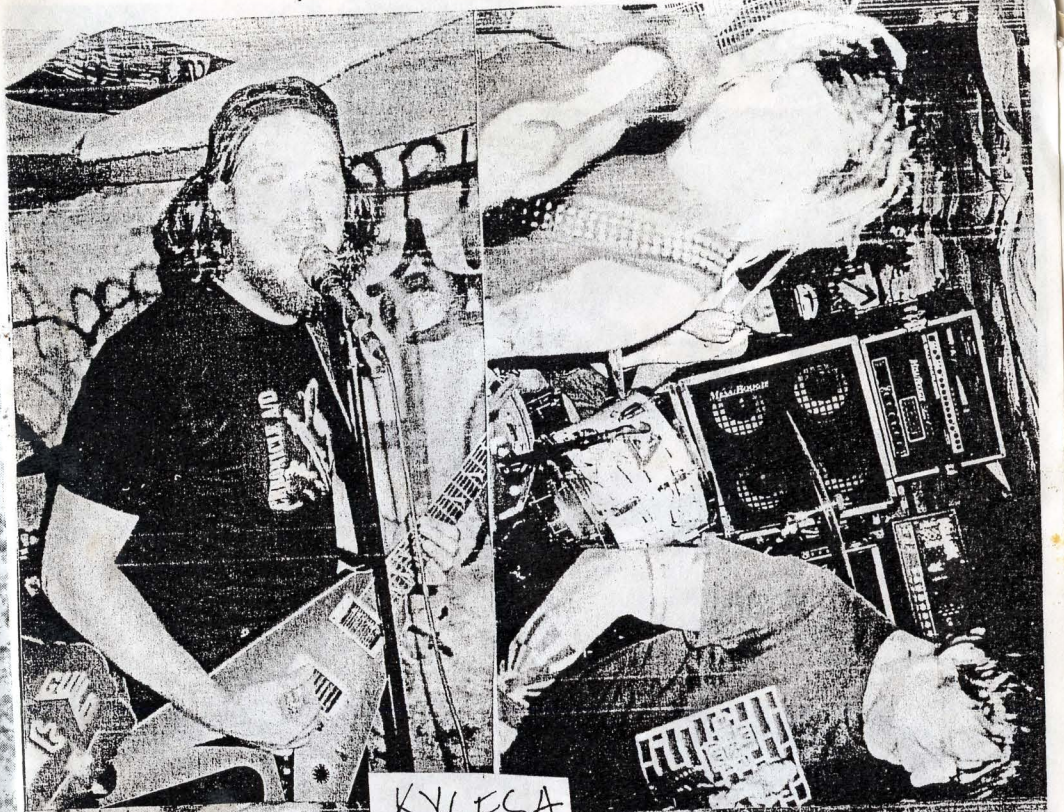

Oh, you should have gotten this for FREE.
